

CHANGING THE HEALTH CARE LANDSCAPE IN DOWNTOWN TULSA

The OSU Academic Medical District is a bold vision of treatment and research and is the largest ever health care investment in downtown Tulsa. The district encompasses multiple city blocks, anchors downtown’s western boundary and will feature state-of-the-art facilities and services including a Veterans Hospital, Oklahoma Psychiatric Care Center, OSU Medical Center and a new research facility.

VETERANS HOSPITAL IN TULSA

A 275,000-square-foot, 58-bed facility.

Up to 50 new OSU Medicine residency spots will be added. It will also be a rotation site for medical and PA students.

Construction underway; scheduled to open in 2025.

Will serve the more than 65,000+ veterans living in the Tulsa metro area.

Funded by federal, private philanthropic, state, county and city dollars.

OKLAHOMA PSYCHIATRIC CARE CENTER

The 140,000-square-foot center will have 106 inpatient beds, doubling the existing number of beds in Tulsa.

More than 30,000 adults and youth in Tulsa experience severe mental illness or a major depressive episode yearly.

The Oklahoma Psychiatric Care Center will be located just northwest of the new VA Hospital.

Up to 50 new OSU Medicine residency spots will be created. It will also be a rotation site for medical and PA students.

The Oklahoma Psychiatric Care Center will be a university-owned facility, operated by the state, and supported with one-time capital gifts of \$70 million from charitable, city, county, state and federal entities.

Groundbreaking ceremony held March 2023; facility to be expected to open late 2024 to early 2025.

OSU MEDICAL CENTER

Originally founded in 1943, the OSU Medical Center is the teaching hospital associated with OSU Center for Health Sciences.

The current hospital is 556,000 square feet with 235 patient beds and is the only hospital in downtown Tulsa.

OSU Medicine operates 10 primary care and specialty clinics in close proximity to the hospital in the Academic Medical District.

A multi-phase renovation, improvement and expansion plan is being developed for the medical center and OSU Medicine clinics adjacent to the hospital, including a new parking garage.

BIOTECH LIFE SCIENCES BUILDING

The Biotech Life Sciences Building will become a hub of neuroscience research partnerships as well as a start-up incubator for research initiatives pursuing federal grants.

Future phases include construction of a Biotech Life Sciences Building.

A state-of-the-art biotechnology research and development laboratory.

The focus of the work will include researching pain and developing addiction solutions.
