GUEST SPEAKER
Sandro Galea, M.D., MPH, DrPH

This course is designed for medical professionals, faculty, students and individuals interested in learning about the role of context in shaping brain disorders.

Participants can expect to learn how brain disorders may differ across groups characterized by different assets and the potential approaches to shift the substance use disorder population curve.

GUEST SPEAKER
Sandro Galea, a physician, epidemiologist and author, is dean and Robert A. Knox Professor at Boston University School of Public Health. He previously held academic and leadership positions at Columbia University, the University of Michigan and the New York Academy of Medicine.

He has published extensively in peer-reviewed literature and is a regular contributor to a range of public media about the social causes of health, mental health and the consequences of trauma.

Galea holds a medical degree from the University of Toronto, graduate degrees from Harvard University and Columbia University and an honorary doctorate from the University of Glasgow.
