**CENTER FOR
HEALTH SCIENCES**

COLLEGE OF OSTEOPATHIC MEDICINE

OSU College of Osteopathic Medicine is the only osteopathic medical school in Oklahoma. Since 1972, physicians have learned the importance of treating patients as a whole person to ensure healthy outcomes through compassionate care.

If you're a junior high or high school student interested in learning more about the school of medicine, please contact chs_outreach@okstate.edu for more information.

If you're an undergraduate student wanting to learn more about the school of medicine, please contact osucomrecruitment@okstate.edu for more information.

D.O. SOMETHING GOOD. BE SOMETHING GREAT.

LEARN ABOUT OSU-COM

CAMPUS TOURS

Explore the campus with a medical student ambassador during the week.

INFORMATION SESSIONS

OSU College of Osteopathic Medicine hosts monthly information sessions for prospective students who want to learn about our application process and other programs on campus. Students will view a brief presentation, tour the A.R. and Marylouise Tandy Medical Academic Building and have a Q&A with our medical students.

STUDENT ADVISEMENTS

Do you have questions about the application process? Interested in talking to someone about your college transcripts, scheduling a tour of our campus or how to apply to OSU-COM? Schedule your appointment today.

GRADUATE PROGRAMS

OSU Center for Health Sciences offers several graduate degrees in a variety of academic disciplines. Our dedicated faculty engage our students through small class sizes, hands-on research and real-world experiences. While it varies by program, we offer on campus, online and hybrid courses.

If you're a junior high or high school student interested in learning more about the graduate programs at OSU Center for Health Sciences please email chs_outreach@okstate.edu for more information.

If you're an undergraduate student interested in learning more about our programs, please email chsgradprograms@okstate.edu.

LEARN ABOUT GRAD PROGRAMS

PROGRAM OVERVIEW

OSU-CHS offers several programs across multiple schools at the graduate level. We are home to the School of Health Care Administration, School of Forensic Sciences, School of Biomedical Sciences, School of Allied Health and the Physician Assistant Program. We offer master's degrees and doctoral degrees, and multiple graduate certificates. Please schedule an appointment with our recruiter to discuss your area of interest.

EXPLORE CAMPUS

Schedule a tour with the graduate programs recruiter to visit campus and discuss your area of interest.

STUDENT ADVISEMENTS

Do you have questions about a program? Are you interested in touring the campus or have questions on how to apply? Schedule your appointment with prospective student recruitment today.

BLUE COAT TO WHITE COAT

Partnering with Oklahoma FFA, OSU Center for Health Sciences has created the Blue Coat to White Coat program. This program is intended to identify and cultivate talented students who are interested in a career in the science or medical field. FFA members are uniquely suited to serve rural communities, so BCWC helps foster members' interest in pursuing a career in the science or health care industry. Be sure and check out our [event section](#).

GREEN COAT TO WHITE COAT

Partnering with Oklahoma 4-H, the Green Coat to White Coat program identifies and cultivates talented students interested in science and medicine. 4-H members are uniquely suited to serve rural communities, so the GCWC program helps foster members' interest in health care.

There are many ways for high school 4-H members to get involved with OSU-CHS. Check out our [event section](#).

NATIVE PATHWAY

Native Pathway has been developed to encourage young American Indian students to pursue a career in science and medicine while also embracing their culture. There are many ways high school students can get involved with OSU-CHS.

OSU College of Osteopathic Medicine at the Cherokee Nation, the first tribally affiliated medical school in the country, offers students the opportunity to learn and work in the rural and tribal community of Tahlequah, Oklahoma.

PROGRAMS AND EVENTS

DR. PETE'S IMMERSION CAMP

Participants spend four days learning and working alongside current medical and graduate students gaining a deeper understanding of the programs at OSU.

dylan.tucker@okstate.edu

NATIVE OKSTARS

This program is open to Native American students who have a passion for research. Participants work alongside our graduate students and faculty gaining real-world experience in a research lab.

okstars@okstate.edu

OKSTARS SUMMER RESEARCH PROGRAM

Have a passion for research? This is the program for you! Work closely with our graduate students and faculty to delve into what it means to work in a lab.

okstars@okstate.edu

OPERATION ORANGE

Learn about what it means to be a physician or athletic trainer at a location near you. Operation Orange is a one-day traveling summer medical camp that strives to inspire high school students to pursue a career in the medical field.

ashley.marler@okstate.edu

OSU MEDICINE 411

Attend our virtual summer camp and learn what it looks like to be a medical student and how to achieve this goal.

ashley.marler@okstate.edu

PARTNERSHIP PROGRAM: AAIP IMMERSION

Are you an Oklahoma American Indian high school junior, senior or recent graduate interested in a career in health care? If so, join AAIP for this residential camp and learn more about OSU Center for Health Sciences programs as well as take part in Native American culture experiences.

PRE-HEALTH ROUND UP

Are you interested in going into the health care field, but are not sure what you want to do? Pre-Health Round Up is a day for you to hear from a variety of health care-related professions from all around the state of Oklahoma.

ashley.marler@okstate.edu

CALLING ALL EDUCATORS

Calling All Educators is a program that focuses on providing support to teachers, administrators and counselors. We want to partner with you to provide classroom activities that are fun to engage your younger students. Activities will include virtual activities, STEM-based curriculum, and resources and opportunities to help support your current lesson plans and empower your students to excel.

FOR ELEMENTARY EDUCATORS

At OSU Center for Health Sciences, our vision of innovation in education continues through our partnerships with area elementary schools to spark an interest in medicine and science, expanding our pipeline of future physicians and scientists dedicated to serving Oklahoma communities. We have prepared engaging STEM experiences for younger students that foster a passion for science, research and medicine.

Our medical and graduate students have the opportunity to interact with elementary students through their participation in our service-oriented program. Our programming includes virtual and in-person activities that correlates with their current curriculum.

Cowboy Corner

The Outreach and University Engagement team will bring Cowboy Corner to your school with help from our graduate and medical students. During Cowboy Corner, staff will read books to the elementary class, and OSU students will offer an interactive medical lesson or science experiment along with a group activity.

Virtual Cowboy Corner

This is an online option offered each month on Tuesdays. Sessions will run about 30 minutes and will include readings and activities presented by students and staff from OSU Medicine. This program is aimed at students in kindergarten through 3rd grade. All teachers that sign up for their classes will be entered for a chance to win prizes. Sign up [here](#).

If there is a certain topic you would like us to assist with please don't hesitate to reach out as we are always looking to improve our programs to better support you.

BRAIN AWARENESS WEEK

Every year in March

Hosted by Society for Neuroscience Tulsa Chapter
 Dr. Dolores Vazquez Sanroman

Brain Awareness Week is a worldwide week for celebrating, educating, and creating awareness about the brain. Some of our activities include:

- Get your hands on some brains! Students learn concepts of neuroscience and understanding brain processes. They also have the opportunity to explore and touch a human brain. The event creates awareness and enormous respect for our organ donor program.
- At Drug Addiction Boot Camp, students learn facts about different drugs and medications.
- At Breakfast with Champions, first- and second-year medical students and Biomedical Sciences students spend an hour providing participants with experiences and guidance for navigating medical and graduate school.

CONTACT

dolores.vazquez_sanroman@okstate.edu

EDUCATOR RESOURCE FAIR

Coming Fall 2021

Educators from across the state are invited to this event that will showcase resources that our campus and partners have to offer. Teachers, support staff, counselors and administrators will have a day filled with information on how to tap into exciting resources and support available for them to use in their schools and classrooms.

PATHWAY TO OSU CENTER FOR HEALTH SCIENCES

Do you have students interested in the science or health care fields? Learn all about our campus and how to get your students here. This is a 30-minute session where you or your students can hear from our outreach coordinators via video conference.

PROJECT ECHO: TELE ED

Project ECHO offers a TeleED ECHO line that is a partnership with OSU-CHS, Project ECHO and OSU-Tulsa. This tool is an educational development resource for school administrators. This resource provides opportunities for superintendents, principals and others in positions

of leadership, especially for schools in rural areas of the state, to share best practices, receive ongoing and timely professional development and collaborate to help resolve complex issues and questions regarding Oklahoma schools and its students.

OTHER OPPORTUNITIES FOR YOUR STUDENTS

If you're a teacher looking for opportunities for your students, be sure and check out our [events section](#).

OFFICE OF
DIVERSITY, EQUITY AND INCLUSION
OSU Center for Health Sciences

The Office of Diversity, Equity and Inclusion aims to provide a positive, caring and respectful environment for all students to feel welcomed and valued. We believe that a more diverse, open and inclusive environment creates a richer experience for our entire campus. Our goal is to ensure that our many distinct voices can be expressed and heard in a community where all students can thrive in their pursuit of excellence. The Office of Diversity works toward creating a culture where every student feels empowered to reach their highest potential.

4-H

4-H is one of the largest government-run programs for youth. 4-H is dedicated to helping Oklahoma youth, families and communities reach their full potential.

TRSA

Tulsa Regional STEM Alliance has a mission of building broad, deep and innovative STEM pathways for all students to access high-impact careers.

FFA

The Oklahoma FFA prepares students by helping them develop leadership and life skills. FFA and OSU partner together to cultivate and identify talented students who are interested in a career in science and medicine.

Health • Education • Community

AREA HEALTH EDUCATION CENTER (AHEC)

The Area Health Education Center (AHEC) mission is to enhance access to quality health care, particularly primary and preventive care, by improving the supply and distribution of health care professionals via strategic partnerships with academic programs like OSU-CHS, communities and professional organizations.

AHEC Scholars is a program for health professions students interested in supplementing their education by gaining additional knowledge and experience in rural or underserved urban settings. This program emphasizes an interdisciplinary curriculum that incorporates clinical, didactic and community-based training. All experiential or clinical training will be conducted in rural or underserved urban settings.
