Senate Review of Committee Reports:

Dr. Hall, OSU-Faculty Council Representative, reported they had not met since last month.

Dr. Cotton, Oklahoma State Board of Regents for Higher Education Faculty Advisory Council Representative, noted this will be the last report to give as the OK Board of Regents for Higher Education Faculty Advisory Council Representative. At the meeting was a presentation about the challenges of learners returning to in person

learning. An annual townhall for OK Board of Regents for Higher Education was held and discussed tuition. The OSU Faculty Advisory Council recommended to not raise tuition also recommended they consider a program for key areas where Oklahoma suffers from people going into those fields such as K-12 teachers. Dr. Baits is researching other states and schools that do something similar to tuition forgiveness.

Dr. Stroup added that OSU has not finalized the budgets yet for the campuses. They will discuss Friday at the meeting. Allocations for the State Regents were relatively flat. Any increases are what they call “targeted increases” which are for schools that have nursing programs and schools that have aerospace engineering programs. The decision will be made at the Friday meeting. Dr. Stroup opened the meeting to questions. There was no questions received.
