FOUR CIRCLE

OBJECT OF THE GAME:
Move to hoop number 4!

WHAT YOU’LL NEED:
- 4 Hula hoops
- 1 ball

INSTRUCTIONS:
Setup: Lay your hula hoops on the ground in a square, sides touching. Assign each hoop a number, with a player standing outside of each one.

Playing the Game: Begin playing as if in a normal four square game. However, after each time a player hits the ball, they can slide their hula hoop across the ground! If a player doesn't bounce their ball inside a hula hoop, they are out and must move back to hoop 1. Other players move to the next available hoop.
