OBJECT OF THE GAME:
Learn how sunscreen protects your skin!

WHAT YOU’LL NEED:
- Sunscreen
- Paintbrush
- Construction paper (dark color)

INSTRUCTIONS:
Setup: Provide each scientist with a paintbrush and piece of dark colored construction paper.

Playing the Game: Invite participants to use sunscreen to "paint" a picture on the construction paper. Once everyone is finished, place the paintings outside in the sun for at least 2 hours. Then, discuss how the sunscreen protected the paper underneath, showcasing your art!
