

Research Week 2024

Oral Presentation Schedule

Location / Zoom ID

Thursday, February 15

NH 437 / 988 5725 2231

12:00pm – Educational Session

Clinical Trial Diversity

Megan Myers, Pharm.D.

Director, Pfizer Cardiology & Metabolism Team

1:00pm – 4:00 pm – Oral Presentations

NH 437 / 988 5725 2231

Every 20 minutes

1:00pm – Lianna Marilao

Supernumerary cranial bone occurrences within coyotes (Canis latrans)

1:20pm – Joe McCreary

Preventing Clostridioides difficile Infections: Development of an Oral Mucosal Vaccine for Enhanced Protection

1:40pm – Kyle Atkins-Weltman

Reconstructed anatomy and mass properties of dinosaurs suggest interactions in the ecosystem of Tyrannosaurus rex

2:00pm – Senait Assefa

Establishment and Applications of Intestinal Organoid Cultures

2:20pm - Refreshment break

2:40pm – Andy Danison

Osteohistology of Oklahoma's state fossil, the dinosaur Saurophaganax maximus, with notes on its taxonomic status

3:00 pm – Frida Miranda

Screening of Tetraspanin CD63 Protein Interactors using Alto SPR

3:20pm – Brenna Hart-Farrar

Hand Morphology and Biomechanics in the Gray Fossil Site Mastodon with Implications for Giant Body Size in Terrestrial Animals

3:40pm – Gwen Reilly

Anaerobic Techniques for the Cultivation of Novel Microbes
