INTRODUCTION

Letter from the Chief

To the OSU-CHS community,

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act is the landmark federal law, originally known as the Campus Security Act that requires college and universities across the United States to disclose information about crime on and around their campuses. Because the law is tied to participation in federal student financial aid programs it applies to most institutions of higher education, both public and private. It is enforced by the U.S. Department of Education. The “Clery Act” is named in memory of 19 year old Lehigh University freshman Jeanne Ann Clery who was raped and murdered while asleep in her residence hall room on April 5, 1986. The law was amended in 1992 to add a requirement that schools afford the victims of campus sexual assault certain basic rights, and was amended again in 1998 to expand the reporting requirements. The 1998 amendments also formally named the law in memory of Jeanne Clery. The law was amended again in 2000 to require schools beginning in 2003 to notify the campus community about where public “Megan’s Law” information about registered sex offenders on campus could be obtained. The law was most recently amended in 2013 as part of the Violence Against Women Act. For more information about the Jeanne Clery Act, visit the Clery Center for Security on Campus website below:

Sincerely,

Meagan Robertson

Chief of Security

Oklahoma State University-Center for Health Sciences

NOTICE OF AVAILABILITY OF ANNUAL SECURITY REPORT

The Federal Student Right-to-Know, Crime Awareness and Campus Security Act, now cited as the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” and herein identified as the “Clery Report,” requires institutions of higher education to annually prepare and publish a report concerning campus crime statistics and security policies. The report is distributed through appropriate publications, mailings, or computer networks to all current students and employees, as well as to all prospective students and employees upon request. The report contains annual specific campus crime and arrest statistics and campus policies and practices intended to promote crime awareness, campus safety and security. This report is prepared by Meagan Robertson, Chief of Security.

Copies of this report may be obtained by visiting <http://www.healthsciences.okstate.edu/security/>

- Any individual or organization specified in an institution’s statement of campus security policy as an individual or organization to which students and employees should report criminal offenses.
- An official of an institution who has significant responsibility for student and campus activities, including, but not limited to, student housing, student discipline and campus judicial proceedings.

DESIGNATED CAMPUS SECURITY AUTHORITIES

- University Security

- All Communication Personnel
- Physical Plant Services
- Facilities Assist Director

WORKING RELATIONSHIP WITH OTHER LAW ENFORCEMENT AGENCIES

Oklahoma State University-Center for Health Sciences security officers have the authority to ask persons for identification and to determine whether individuals have lawful business on campus. Security may also refer minor offenses committed by students involving University rules and regulations to the disciplinary division of Student Services. Security officers do not possess arrest authority; however, criminal incidents are referred to the local police who have jurisdiction on campus. Security officers work closely with local, state, tribal and federal security agencies and have radio communication with the Tulsa Police Department on the city police radio network. Major offenses such as rape, murder, aggravated assault, robbery, and auto theft are reported to University Security, or the Tulsa Police Department Tahlequah Police Department Cherokee Marshal Service and joint investigative efforts with investigators from OSU-CHS Security and the Tulsa Police are deployed to solve these serious felony crimes. The prosecution of all criminal offenses, both felony and misdemeanor, are conducted at the Tulsa County Courthouse, or the Page Belcher Federal Building.

OSU-CHS recognizes that laws and rules are necessary for society to function and supports the enforcement of law by governmental agencies and rules by officials of the University. All persons on the campus are subject to these laws and rules at all times. While constitutional protections apply, law enforcement officers may enter the campus to conduct business as needed. All law enforcement agencies are expected to check in with OSU-CHS Department of Public Safety when on campus. The CHS Department of Public Safety is not recognized by the State of Oklahoma as a law enforcement agency. OSU-CHS Department of Public Safety enjoys an especially good relationship with the Tulsa Police Department (TPD) and the Cherokee Nation Marshal Service. There are two "memorandum of understanding" (MOU) between TPD, Marshal and the OSU-CHS Department of Public Safety. The OSU Center for Health Sciences (OSU-CHS) and the Tulsa Police Department (TPD) Share a facility located on the main campus of OSU-CHS and the OSU Center for Health Sciences (OSU-CHS) also have a facility located on Cherokee Nation property. While each entity has policies and procedures governing responses to various incidents the parties believe it is in the best interest of both organizations to clearly detail the lines of communication and coordinate any response efforts. The MOU includes a communications plan and an incident response plan which outlines the following:

- Communications Assets
- Key Contact List
- OSU Incident Command Structure
- System Alarms including Fire and intrusion
- Inclement weather
- Lab accident or release of hazardous material
- Human Threats-such as Bomb threat, Active shooter and/or hostage situation
- Outside threats - which include Refinery fire/explosion, Railroad Tracks, Protesters/Demonstrators.

The OSU-CHS Department of Public Safety is notified of all serious crime on campus and is immediately notified of major crimes via the telephone or two way radio. Special needs are communicated between agencies as they occur.

TIMELY WARNING POLICY

To help prevent crimes or serious incidents the OSU-CHS Department of Public Safety, in conjunction with other departments on campus, issues timely warnings to notify Oklahoma State University Center for Health Science community members about crimes or other serious incidents in and around the campus which pose a serious or ongoing threat to the campus community. If a situation arises that, in the judgment of OSU-CHS President or Vice President of Finance and Administration, Provost, Chief Operating Officer, Dean, Safety Officer and the Chief of Security, or the designee of any of these position, constitutes an ongoing or continuing threat, a campus-wide warning will be issued. The warnings will be issued by the University Security Department at the entrance to each campus building and an email and text message will be sent to all students, faculty and staff through the use of "Cowboy Alert". A notice may also be posted on the website at <http://www.healthsciences.okstate.edu/>

The purpose of timely warnings is to provide the OSU-CHS community with more immediate notification. Anyone with information warranting a timely warning should report the circumstances to University Security Department at 918-625-8592 (Main Campus) or at OSUCON-CN 918-453-3572 (Tahlequah Campus) or in person at the West end of Founders Hall. Or contact Meagan Robertson, 1111 West 17th Street, Tulsa, OK. 74107 at 918-625-8592 or meagan.robertson@okstate.edu.

DAILY CRIME LOG

A daily crime log is available for review 24 hours a day at 1111 W 17th ST. Tulsa OK and at 19500 E. Ross St, Tahlequah Ok, 74464 . The information in the crime log typically includes the case number, classification, date reported, date occurred, time occurred, general location and disposition of each crime. It does not include names of the parties involved. http://www.healthsciences.okstate.edu/student/crime_stats.cfm

NOTIFICATION TO UNIVERSITY COMMUNITY ABOUT AN IMMEDIATE THREAT

If the OSU-CHS Department of Public Safety confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the OSU-CHS community, the OSU-CHS Department of Public Safety and/or Tulsa Police Department will utilize some or all of the systems described under the Timely Warning Policy (located at [TIMELY WARNING POLICY](#)) to communicate the threat to the Center for Health Sciences community or appropriate segment of the community if the threat is limited to a particular building or segment of the population. The Center for Health Sciences Department of Public Safety without delay – and taking into account the safety of the community – determines the content of the notification and initiates the notification system unless issuing a notification will, in the judgment of the responsible authorities (including but not limited to: OSU-CHS Department of Public of Safety, Tulsa Police Department, Tulsa Fire Department, and/or the Emergency Medical Services Authority [EMSA], Cherokee Marshals, Tahlequah PD, Tahlequah FD and the CNEMS Health Systems compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

EMERGENCY RESPONSE AND EVACUATION PROCEDURES STATEMENT

An evacuation drill is coordinated by OSU-CHS Department of Public Safety and the OSU-CHS Safety Manager on an annual basis. In conjunction with the drill, OSU-CHS students, faculty, staff and visitors are provided guidance about the direction they should travel when exiting each facility for a short-term building evacuation. OSU-CHS Department of Public Safety and the Safety Manager do not tell the OSU-CHS community in advance about the designated locations for long-term evacuations because those decisions are affected by time of day, location of the building being evacuated the availability of the various designated emergency gathering locations on campus and other factors such as the location and nature of the threat. In both cases, OSU-CHS Department of Public Safety and the Safety Manager on the scene will communicate information to the OSU-CHS community regarding the developing situation or any evacuation status changes. The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of an emergency. At OSU-CHS, evacuation drills are used as a way to educate and train occupants on issues specific to their building. During the drill, occupants 'practice' drill procedures and familiarize themselves with the location of exits and the sound of the fire alarm. In addition to educating the occupants of each building about the evacuation procedures during the drills, the process also provides the University an opportunity to test the operation of fire alarm system components. Evacuation drills are monitored by OSU-CHS Department of Public Safety, Safety Manager, and the Physical Plant to evaluate egress and behavioral patterns. Reports are prepared by participating departments which identify deficient equipment so that repairs can be made immediately. Recommendations for improvements are also submitted to the appropriate departments/offices for consideration. OSU-CHS Public Safety and Safety Manager department documents, for each evacuation drill and test, a description of: the date, time, and whether the drill or test was announced or unannounced. Test drills are conducted annually.

MEDICAL EMERGENCIES

Steps to take in a medical emergency:

- Do not move the patient unless his or her life is in danger.
- Have someone stay with the patient until help arrives.
- Call 911. Tell them your name, your exact location and a brief description of the problem. Do not hang up until told to do so.
- Meet emergency personnel to guide them to the patient.

CAMPUS WIDE EMERGENCY RESPONSE

The purpose of this policy is to establish emergency response procedures for Oklahoma State University- Center for Health Sciences as required by the Higher Education Opportunity Act of 2008. This policy applies to all students and employees of Oklahoma State University- Center for Health Sciences.

OSU-CHS's Incident Manual includes information about Incident Teams, University operating status parameters, incident priorities and performance expectations, shelter-in-place and evacuation guidelines, and local contingency and continuity planning requirements. University departments are responsible for developing contingency plans and continuity of operations plans for their staff and areas of responsibility. The University conducts emergency response exercises each year such as table top exercises and tests of the mass notification systems on campus. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution.

OSU-CHS Security officers and supervisors have received training in incident command and responding to critical incidents on campus. When a serious incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually OSU-CHS Security, Tulsa Police Department and Tulsa Fire , Emergency Medical Services Authority (EMSA), Cherokee Marshals, Tahlequah PD, Tahlequah FD and the CNEMS Health Systems. These agencies typically respond and work together to manage the incident. Depending on the nature of the incident, other OSU-CHS departments and other local or federal agencies could also be involved in responding to the incident.

General information about the emergency response and evacuation procedures for OSU-CHS is publicized each year as part of the institution's Clery Act compliance efforts and that information is available on the OSU-CHS Security web site.

All members of the OSU-CHS community are notified on an annual basis that they are required to notify the OSU-CHS Department of Public Safety of any situation or incident on campus that involves a significant emergency or dangerous situation that may involve an immediate or ongoing threat to the health and safety of students, visitors, and/or employees on campus. OSU-CHS Department of Public safety has the responsibility of responding to and summoning the necessary resources to mitigate, investigate and document any situation that may cause a significant emergency or dangerous situation. In addition, OSU-CHS Department of Public Safety has a responsibility to respond to such incidents to determine if the situation does in fact, pose a threat to the community. If that is the case, federal law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation.

CRIME PREVENTION

During orientation, students and employees are informed of services offered by OSU-CHS Department of Public Safety. Video and slide presentations outline ways to maintain personal safety and security.

Periodically during the academic year OSU-CHS Department of Public Safety, in cooperation with other university organizations and departments, provides a variety of educational strategies and tips on how students and employees can protect themselves from sexual assault, theft and other crimes.

A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own security and the security of others. When time is of the essence, information is released to the university community through security alerts and a voicemail and texting broadcasting system (Cowboy Alert).

NATURAL DISASTERS

The following information is a guideline to aid you in determining what action you should take in severe weather.

- **Tornado WATCH:** Conditions are such that storms capable of producing a tornado may develop.
- **Tornado WARNING:** Either a tornado has been sighted or it is highly probable that one will develop. A warning will be signaled by the storm warning sirens.

The outdoor warning system tone for a Tornado Warning is a seven minute cycle. Off for one minute, Then back on for three minutes, off for one minute, then back on for another three minutes.

The sirens are tested every Wednesday at 12 noon (weather permitting) if weather will not allow a live test, a silent test will be performed. A silent test can be conducted at any time and as needed.

Tornado Precautions:

1. If you are in the warning area, seek shelter immediately.
2. If you are in a vehicle, get out and seek shelter in a sturdy building. If a building is not available, a depression such as a ditch or ravine offers some protection, but be alert for flash floods.
3. Do not open windows. This can actually increase damage to the building. Stay away from windows and exterior doors.
4. Basements, interior hallways on the lower floors and small interior rooms on the lower floors offer the best shelter.
5. Do not attempt to turn utilities on or off.
6. Report injuries and damage to the Oklahoma State University Center for Health Sciences Department of Public Safety at 918-625-8592. After the all clear, leave badly damaged buildings and do not attempt to return unless directed to do so by emergency personnel.

SEX OFFENDER REGISTRY

The federal Campus Sex Crimes Prevention Act, enacted on October 28, 2000, requires institutions of higher education to issue a statement advising the campus community where law enforcement agency information provided by a state concerning registered sex offenders may be obtained.

Oklahoma law (Title 57, Sections 583-584) requires anyone required to register as a sex offender do so with both their local law enforcement (municipal or county) agency at their residence and also with the police or security department of any institution of higher education at which they are enrolled as a student (full-time or part-time), are an employee (full-time or part-time) or reside (or intend to reside or stay) on any property owned or controlled by the institution of higher education.

REPORTING PROCEDURES

GENERAL PROCEDURES FOR REPORTING A CRIME OR EMERGENCY)CRIME REPORTING

Crime victims and witnesses to a crime, regardless of the crime, are encouraged to promptly report incidents to the Oklahoma State University Center for Health Sciences Department of Public Safety or other appropriate police agencies. To report a crime, the victim, if he or she elects to, or witness needs only to call the police and a police officer will meet them to gather information. An official report will be made with copies available to the victim after a completed investigation. Each month, the number of incidents in each category of crime are counted and reported to the Oklahoma State Bureau of Investigation, which in turn provides the information to the Federal Bureau of Investigation.

Each year, the FBI publishes a book of crime statistics, "Crime in the United States," which includes accurate accounting of the criminal incidents that occurred on the Oklahoma State University Center for Health Sciences campus.

To report a crime in progress, dial 911 and from a campus phone or call 918-625-8592 (Tulsa Main) or 918-453-3572 (Tahlequah Campus) when off campus or using a cell phone.

CONFIDENTIAL CRIME REPORTING

Confidential reporting of crimes is allowed at Oklahoma State University Center for Health Sciences. If, for a personal reason, a person does not wish to report an on-campus crime or suspected crime to the police, that person may anonymously report it by using a Crime Stoppers Program or Online through the Silent Witness Program on the OSU-CHS Department of Public Safety Website at <http://www.healthsciences.okstate.edu/security/>

CRIMES DISCLOSED TO A PASTORAL OR MENTAL HEALTH COUNSELOR

To be exempt from disclosing reported offenses to appropriate Oklahoma State University Center for Health Sciences officials, a pastoral or mental health counselor must be acting in their role as a pastoral or professional counselor. This exemption does not relieve counselors of the duty to exercise reasonable care to protect a foreseeable victim from danger posed by the person being counseled. When speaking to a victim or witness to a crime, counselors are encouraged to inform the individual to report the crime to the police.

A pastoral counselor is a person who is associated with a religious order or denomination, is recognized by that religious order or denomination as someone who provides confidential counseling, and is functioning within the scope of that recognition as a pastoral counselor.

A mental health counselor is a person whose official responsibility includes providing mental health counseling to members of the institution's community and who is functioning within the scope of his or her license or certification. This definition also applies to professional counselors who are not employees of the institution but are under contract to provide counseling to the institution.

Personal information will not be conveyed when making this disclosure unless the victim consents to such disclosure.

CRIMES IN PROGRESS

To report a crime in progress, a person, victim or witness can dial 911, or call one of the listed police phone numbers provided at the section of this report titled, [Reporting to the Police](#). Any reporting method will stimulate the response of police, fire, ambulance or other first responders. In addition, the victim of a serious crime can request support personnel, such as ministers and rape crisis or domestic violence counselors, during or after reporting the incident.

Additionally, crime victims may be eligible for funds through victims' compensation laws administered by the local district attorney's office.

Prompt reporting of criminal activity to the police enables a quick response, a timely warning, and a safer campus for everyone.

If you are the victim of a crime or a witness to one, you should do the following:

1. **Call the police immediately:** Dial 911 for emergencies or call 918-625-8592 (Tulsa Main) or 918-453-3572 (Tahlequah Campus).
2. **Obtain a description:** Attempt to obtain a description of the offender(s), including gender, age, race, hair, clothing and distinguishing features. Also attempt to obtain a description and license number of any vehicle(s) involved. Note the direction of travel of any offender(s) or vehicle(s) and report these to the police.
3. **Preserve the crime scene:** Do not touch any items involved in the incident. Close off the area of the incident, and do not allow anyone in the crime area until police arrive.

CRIME DISCLOSURE

Oklahoma State University Center for Health Sciences policies and procedures require the publication of annual crime statistics. Student Conduct will be available to explain the process to you individually as requested. The Student Conduct process will be prompt, fair, and impartial. This is to mean the process will be completed within a reasonable timeframe as designated below and without undue delay.  - meeting personally with the student(s) accused,
 - meeting personally with any witnesses, and
 - Reviewing any documentary evidence.

SEX OFFENSES, DOMESTIC VIOLENCE, DATING VIOLENCE, AND STALKING

Educational Programming

Oklahoma State University Center for Health Sciences prohibits the crimes of dating violence, domestic violence, sexual assault, and stalking, as defined in the "Definitions" section at [CRIME DEFINITIONS](#).

All acts of sexual violence are taken/treated very seriously by OSU-CHS. In an effort to educate students and comply with the Violence Against Women Act and the Office for Civil Rights federal guidelines, all students are required to complete online training on sexual violence prevention. A hold will be placed on any student's account that has not completed the training, which will affect enrollment for the subsequent semester, until the training has been completed. Sexual violence training should take around forty (40) minutes to complete. Students must complete these steps:

- OSU-CHS Medical Students go to <https://v9.alcoholedu.com/login/default.aspx?id=okstatechs>
- OSU-CHS Graduate Students go to 1is2manychs.okstate.edu
- Log in with Okey account information
- Complete the training

Bystander Intervention

To prevent sexual violence, it is important that people are approached as potential witnesses or bystanders to behaviors related to sexual violence. As a witness to these behaviors, there are certain ways to step up to prevent a risky situation from escalating.

In order to intervene, someone has to:

1. **Notice the incident**
 - a. Bystanders first must notice the incident taking place. It is important to become attuned to what situations may be risky (e.g. if you're at a party, and you see someone stumbling as they're being led into a different room, this is a risky situation).
2. **Interpret the incident as emergency**
 - a. By "emergency," we mean a situation wherein there is risk of sexual or physical violence occurring in the near future.
3. **Assume responsibility for intervening**
 - a. It has been found that often, people believe that someone else will help in a situation where there are many people around. However, it is important to realize that others may also be thinking the same thing. If you're unsure if you should do something, ask a friend what they think- it might be the case that they've been thinking the same thing.
4. **Have the bystander intervention skill to help**
 - a. There are a number of different techniques that someone can use to intervene in a risky situation.

Oklahoma State University Center for Health Sciences prohibits the crimes of dating violence, domestic violence, sexual assault, and stalking, as defined in the Definitions section at [CRIME DEFINITIONS](#). Oklahoma State University Center for Health Sciences further prohibits the crimes of dating violence, domestic violence, sexual assault, and stalking, as defined under Oklahoma law, set forth in the attached Appendix A.

Victim Information

If you are a victim of sexual violence, you are not alone and you are in no way responsible for your assault.

Definition of Consent

Effective Consent is:

- informed;
- freely and actively given;
- mutually understandable words or actions; and
- Indicates a willingness to participate in mutually agreed upon sexual activity.

What to do if you are a Victim of Sexual Violence

- If you are not safe and need immediate help, call the police. If the incident happened on campus, call the Oklahoma State University Center for Health Sciences Security Department at 918-625-8592. If the incident occurred elsewhere in Tulsa, call the Tulsa Police Department at 918-596-1100. If the incident happened anywhere else, call the law enforcement agency that has jurisdiction in the location where it occurred.
- Do what you need to do to feel safe. Go to a safe place or contact someone with whom you are comfortable. You can call the **24-hour Rape Crisis Line 918-743-5763** to get advice and discuss options for how to proceed.
- Do not shower, bathe, douche, change or destroy clothes, eat, drink, smoke, chew gum, take any medications or straighten the room or place of the incident. Preserving evidence is critical for criminal prosecution. Although you may not want to prosecute immediately after the incident, that choice will not be available without credible evidence. The evidence collected can also be useful in the campus conduct process.
- Go to the Hillcrest Medical Center to receive care for any physical injuries that may have occurred. While in the emergency room, treatment will be provided for sexually transmitted diseases and to prevent pregnancy. A Sexual Assault Nurse Examiner (SANE), a sexual assault response advocate and police officer will be available for support.
- If you call the 24-hour Rape Crisis Line [918-743-5763], a sexual assault nurse examiner (SANE), a police officer and a rape volunteer advocate will be sent to the exam site.
- Upon arrival at Hillcrest Medical Center, you will be taken to a private exam area. The nurse, advocate and police officer will be directed to this same location. You will be examined to treat any injuries and to gather evidence.
- With your permission, the sexual assault advocate will support you throughout the entire exam, which will be performed by the nurse. The advocate will provide a packet of written materials that contains information about common reactions to rape, follow-up medical needs and support services.
- Upon notification or request, OSU-CHS will provide written notification to students and employees about existing counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services available for victims, both within the institution and in the community.

On and Off Campus Resources

Sexual violence can be very emotionally disruptive, and it takes time to come to terms with such a major stress. In addition to support that may be found in family and friends, the following agencies and departments can serve as resources for you.

It is important to be aware that different individuals who you may contact for assistance following an incident may have different responsibilities regarding confidentiality, depending on their position. Under state law, some individuals can assure the victim of confidentiality, including counselors and certified victims' advocates. In general, however, any other institution employee cannot guarantee complete confidentiality, unless specifically provided by law. As is the case with all colleges and universities, Oklahoma State University Center for Health Sciences must balance the needs of the individual victim with an obligation to protect the safety and well-being of the community at large.

Medical Services

It's important to have a thorough medical examination after a sexual assault even if you do not have any apparent physical injuries. Medical providers can treat any injuries and provide tests for sexually transmitted diseases.

Protective Measures

Student Conduct, the Victim Advocate and the Title IX Coordinator can put in place interim measures for student victims and employees of sexual violence as needed. A formal complaint does not need to be submitted to have interim measures put in place. Oklahoma State University Center for Health Sciences will maintain as confidential any interim measures provided as long as it does not impair the ability to provide the interim measures.

- **Assistance in Reporting:** Student Conduct can assist you in filing a complaint with the institution conduct process and the appropriate law enforcement agencies against the student(s) who caused harm.
- **No Contact Order:** Student Conduct can put in place a No Contact Order between the complainant and the respondent, which would prohibit contact between both parties through any means of communication, as well as not having others make contact on their behalf.
- **Emergency Protective Order:** Student Conduct can assist you in filing for an Emergency Protective Order in court *with* DVIS. *This* is a court-ordered petition that prohibits contact between the complainant and respondent.
- **Safety Measures:** Student Conduct can coordinate any reasonable arrangements that are necessary for your ongoing safety. This includes transportation arrangements or providing an escort.
- **Living Arrangements:** Student Conduct can assist in changing your on-campus living arrangements or that of the accused to ensure safety and a comfortable living situation.
- **Academic Arrangements:** Student Conduct can assist in adjusting your academic schedule or that of the accused as well as assist in providing access to academic support services.
- **Other Interim Measures:** Student Conduct can coordinate any reasonable arrangements to address the effects of the sexual violence on you, including connecting you with counseling, health care or academic support resources.

When Student Conduct and the Title IX Coordinator becomes aware of a student or employee who potentially could have been a victim of sexual violence, they will contact the victim in writing through Oklahoma State University Center for Health Sciences email to share these protective measures, reporting options and other resources available. This will be done no matter the location of the incident.

Reporting

All forms of sexual violence should be reported, no matter the severity. Oklahoma State University Center for Health Sciences primary concern is safety; therefore individuals should not be deterred in reporting even if the use of alcohol or other drugs was involved. Notwithstanding the foregoing, a victim has the right to decline to notify the OSU-CHS Security Department and law enforcement authorities.

Oklahoma State University Center for Health Sciences encourages victims of sexual violence to talk to someone about what happened so they can receive support and so that the institution can respond appropriately. Oklahoma State University Center for Health Sciences offers both confidential reporting and non-confidential reporting options. It is important to be aware that different individuals who victims can contact for assistance following an incident may have different responsibilities regarding confidentiality, depending on their position. Under state law, some individuals can assure a victim of confidentiality, including counselors and certified victims' advocates. In general, however, any other institution employee cannot guarantee complete confidentiality, unless specifically provided by law. As is the case with all colleges and universities, the institution must balance the needs of the individual victim with an obligation to protect the safety and well-being of the community at large. Different employees on campus have different abilities to maintain a victim's request for confidentiality.

- Some are required to maintain near complete confidentiality; talking to them is sometimes called a "privileged communication."
- Other employees may talk to a victim in confidence, and generally report only that an incident occurred without revealing any personally identifying information. Disclosures to these employees will not trigger an institution investigation into an incident against the victim's wishes. This report is done through a Clery Report and does not include the victim's name or other identifying information.
- Thirdly, some employees are required to report all the details of an incident (including the identities of both the victim and alleged perpetrator) to the Title IX Coordinator.

Confidential Reporting Options

Confidential reporting options provide students with the ability to confidentially report and discuss an instance of sexual violence without their information being shared with others. Please note confidential reporting limits the institution's ability to respond to incidents.

Professional Counselors

Professional and licensed counselors who provide mental health counseling (including those who act in that role under the supervision of a licensed counselor) are not required to report any information about an incident to the Title IX coordinator without a victim's permission. These individuals are also not required by the Clery Act to report. This would include counselors who work in OSU-Tulsa Student Counseling Center on campus.

Victim Advocate

Oklahoma State University Center for Health Sciences treats the Victim Advocate as a confidential reporting option. Victims can visit with the Victim Advocate to learn about resources available on campus. The Victim Advocate is not required to report any information about an incident to the Title IX Coordinator without a victim's permission. However, the Victim Advocate will report incidents to Oklahoma State University Center for Health Sciences Department of Public Safety for the purpose of the Clery Act. Additionally, the Victim Advocate will report quarterly to the Board of Regents on trends of incidents.

University Health Providers

University Health Services providers are confidential reporting options. They are not required to report any information about an incident to the Title IX Coordinator without a victim's permission. However, they will report incidents without any identifiable information to Oklahoma State University Center for Health Sciences Department of Public Safety for the purpose of the Clery Act.

While these professional counselors, non-professional counselors (those who act under the supervision of a licensed counselor), advocate, and health providers may maintain a victim's confidentiality, they may have reporting or other obligations under state law, such as mandatory reporting to law enforcement in the case of minors, imminent harm to self or others, or requirement to testify if subpoenaed in a criminal

case.

If Oklahoma State University Center for Health Sciences determines that the alleged individual(s) pose a serious and immediate threat to the campus, Oklahoma State University Center for Health Sciences may issue a timely warning to the community. Any such warning will not include any information that identifies the victim.

Non-Confidential Reporting Options

The Board of Regents for the Oklahoma Agricultural and Mechanical Colleges and the Clery Act require all other employees (excluding counselors and Victim Advocate) who become aware of an instance of sexual violence to report the instance to Oklahoma State University Center for Health Sciences Department of Public Safety. The victim's name should not be reported to the police without the victim's permission. The report should include the nature, date, time, and general location of an incident. This is a limited report which includes no information that would directly or indirectly identify the victim. This allows for the institution to track patterns, evaluate the program, and develop appropriate campus-wide responses.

Note that the Clery Act requires other crimes to be reported. Visit <http://www.clery.org> to learn more.

When an instance of sexual violence is reported to a "responsible employee" the reporter can expect the incident will be reported to the Title IX Coordinator or Student Conduct Office. A responsible employee must report to the Title IX Coordinator or Student Conduct Office all relevant details about the alleged sexual harassment or sexual violence shared by the victim including names, date, time and specific location of the alleged incident.

To the extent possible, information reported to a responsible employee will be shared only with people responsible for handling the institution's response to the report. A responsible employee should not share information about the victim to law enforcement.

A "responsible employee" is an employee who has the authority to redress sexual violence, who has the duty to report incidents of sexual violence or other student misconduct, or who a student could reasonably believe has this authority or duty. Examples include but are not limited to faculty members, advisors, employees in student services offices and anyone in a supervisory role.

When a victim tells a responsible employee about an incident of sexual violence, the victim has the right to expect the institution will investigate the alleged sexual violence, end any sexual violence, prevent the sexual violence from reoccurring, and educate on sexual violence.

Before a victim reveals any information to a responsible employee, the employee should ensure that the victim understands the employee's reporting obligations and if the victim wants to maintain confidentiality, then the student should be directed to a confidential resource. Employees can learn more about interacting with a victim of sexual violence at:

<http://1is2manytulsa.okstate.edu/>

Requests for Confidentiality from a Non-Confidential Reporter

If a victim discloses an incident to a responsible employee but wishes to maintain confidentiality or requests that no investigation into a particular incident be conducted or conduct action taken, Oklahoma State University Center for Health Sciences must weigh that request against the obligation to provide a safe environment for all students, including the victim.

If the institution honors the request for confidentiality, a victim must understand that the institution's ability to meaningfully investigate and respond to the incident may be limited.

Although rare, there are times when the University may not be able to honor a victim's request in order to provide a safe environment for all students.

When weighing a victim's request for confidentiality or that no investigation or conduct process be pursued, the following will be considered:

- The increased risk that the alleged respondent will commit additional acts of sexual or other violence, such as:
- whether there have been other sexual violence complaints about the same alleged respondent;
- whether the alleged respondent has a history of arrests or records from a prior school indicating a history of violence;
- whether the alleged respondent threatened further sexual violence or other violence against the victim or others;

- whether the sexual violence was committed by multiple respondents;
- whether the sexual violence was perpetrated with a weapon;
- whether the victim is a minor;
- whether the institution possesses other means to obtain relevant information of the sexual violence (e.g., security cameras or personnel, physical evidence);
- whether the victim's report reveals a pattern of perpetration (e.g., via illicit use of drugs or alcohol) at a given location or by a particular group.

The presence of one or more of these factors could lead the institution to investigate and, if appropriate, pursue conduct action. If none of these factors is present, the institution will likely respect the victim's request for confidentiality.

If it is determined that the institution cannot maintain a victim's confidentiality, the institution will inform the victim prior to starting an investigation. Oklahoma State University Center for Health Sciences will remain ever mindful of the victim's well-being, and will take ongoing steps to protect the victim from retaliation or harm and work with the victim to create a safety plan. The institution may not require a victim to participate in any investigation or conduct process. Retaliation against the victim, whether by students or institution employees, will not be tolerated.

Reporting to the Police

Oklahoma State University Center for Health Sciences strongly encourages individuals to report sexual violence and any other criminal offenses to the police. This does not commit you to prosecute but will allow the gathering of information and evidence. The information and evidence preserve future options regarding criminal prosecution, institution conduct actions and/or civil actions against the perpetrator.

If the incident happened on campus it is able to be reported to the Oklahoma State University Center for Health Sciences Department of Public Safety in 1111 West 17th ST., Tulsa, OK, 74107 or over the phone at 918-625-8592. If the incident occurred elsewhere in Tulsa it can be reported to the Tulsa Police Department at 7515 S. Riverside Dr. Tulsa OK 74136 or at (918) 596-1100. If the incident happened anywhere else, it can be reported to the local law enforcement with jurisdiction in the location where it occurred.

Please know that the information you report can be helpful in supporting other reports and preventing further incidents.

Report to Student Conduct

Anyone can report any instances of sexual violence to Student Conduct at 1111 West 17th Street, Tulsa, OK. 74107 Room A-112 or at **918-561-1950**

A complaint should be filed as soon as possible, preferably within 180 calendar days of the incident.

If either the victim or the accused is a student, the incident will be addressed through the Student Conduct process once a complaint is filed.

Additionally, as stated above, Oklahoma State University Center for Health Sciences strongly encourages individuals to report any instance of sexual violence to the police.

Consent:

The term “consent” means the affirmative, unambiguous and voluntary agreement to engage in a specific sexual activity during a sexual encounter which can be revoked at any time. Consent cannot be:

- 1) Given by an individual who:
 - a) is asleep or is mentally or physically incapacitated either through the effect of drugs or alcohol or for any other reason, or
 - b) is under duress, threat, coercion or force; or
- 2) Inferred under circumstances in which consent is not clear including, but not limited to:
 - a) the absence of an individual saying “no” or “stop”, or
 - b) the existence of a prior or current relationship or sexual activity.

21 Okla. Stat. § 113 (effective June 6, 2016).

Dating violence is not defined in Oklahoma; however, violence against a person with whom the perpetrator is in a dating relationship is considered domestic violence, defined below. A **dating relationship** is defined as: an intimate association, primarily characterized by affectionate or sexual involvement. For purposes of this act, a casual acquaintance or ordinary fraternization between persons in a business or social context shall not constitute a dating relationship.

22 Okla. Stat. § 60.1

Domestic violence is not defined in Oklahoma law. However, the criminal definition of domestic abuse is defined as: Any act of physical harm, or the threat of imminent physical harm which is committed by an adult, emancipated minor, or minor child thirteen (13) years of age or older against another adult, emancipated minor or minor child who is currently or was previously an intimate partner or family or household member. “Family or household members” means: (a) parents, including grandparents, stepparents, adoptive parents and foster parents, (b) children, including grandchildren, stepchildren, adopted children and foster children, and (c) persons otherwise related by blood or marriage living in the same household. “Intimate partner” means: (a) current or former spouses, (b) persons who are or were in a dating relationship, (c) persons who are the biological parents of the same child, regardless of their marital status or whether they have lived together at any time, and (d) persons who currently or formerly lived together in an intimate way, primarily characterized by affectionate or sexual involvement. A sexual relationship may be an indicator that a person is an intimate partner, but is never a necessary condition.

22 Okla. Stat. § 60.1.

Sexual assault:

- a. rape, or rape by instrumentation, as defined in Sections 1111, 1111.1 and 1114 of [Title 21], or

 6. Where the victim submits to sexual intercourse under the belief that the person committing the act is a spouse, and this belief is induced by artifice, pretense, or concealment practiced by the accused or by the accused in collusion with the spouse with intent to induce that belief. In all cases of collusion between the accused and the spouse to accomplish such act, both the spouse and the accused, upon conviction, shall be deemed guilty of rape;
 7. Where the victim is under the legal custody or supervision of a state agency, a federal agency, a county, a municipality or a political subdivision and engages in sexual intercourse with a state, federal, county, municipal or political subdivision employee or an employee of a contractor of the state, the federal government, a county, a municipality or a political subdivision that exercises authority over the victim; or the subcontractor or employee of a subcontractor of the state or federal government, a county, a municipality or a political subdivision that exercises authority over the victim;
