

# Academic Coaching

## ACADEMIC COACHING NOW AVAILABLE

The Office of Academic Success is excited to offer Academic Coaching for first year medical and PA students. Academic Coaching allows students to meet one-on-one or in small groups of no more than five with a second year student who has successfully completed the course.

Students reserve a time with an academic coach online via QR code below and tell the coach exactly what lecture/content they'd like to cover in the coaching session, so it is customized and personalized to the needs of the students.

Academic Coaching will be offered free to first year students for the following courses:

### FALL

- BMF I-IV
- MSF
- Anatomy

### SPRING

- BMF V & VI
- Cardiovascular
- Respiratory
- Hematology
