---

**Program Overview**

The Office of Clinical Education conducts a 22-month Clerkship Program for OSU College of Osteopathic Medicine third- and fourth- year medical students. Clinical education programs, except elective rotations, are located within institutions that either have an affiliation agreement or are under the direct management of the College. Each student will be assigned required clerkship rotations by the Office of Clinical Education in February of their second year. In the event there is a loss of a core rotation site or preceptor, the office of clinical education will adjust the student’s schedule and assign a new rotation location.
Students’ Rights & Responsibilities

Non-discrimination Statement
The Oklahoma State University Center for Health Sciences and OSU College of Osteopathic Medicine prohibits discrimination against qualified individuals based on their age, race, ethnicity, color, religion, sex, sexual orientation, genetic information, gender, gender identity or expression, national origin, disability, protected veteran status, or other protected category. Students with grievances relating to alleged discrimination may seek redress. Complaints may be handled through the grievance procedure published in the “Student Grievance” section of this handbook or through the Office of Student Conduct/Title IX Coordinator, as appropriate.

Sexual Violence Prevention Training
In an effort to comply with the Violence Against Women Act and the Office of Civil Rights federal guidelines, all students will be required to be trained in sexual violence prevention. The College will notify students of the resource to access to comply with this requirement. Failure to complete this training, as specified, will result in a delay in enrollment for the upcoming academic term. Additional information can be found at http://1is2manychs.okstate.edu/ or by contacting the Office of Student Affairs. For questions about compliance with this training, please contact the Registrar’s Office or Assistant Dean for Enrollment Management at 918-561-8421.

Sexual Harassment
Oklahoma State University–Center for Health Sciences takes acts of sexual harassment, which includes sexual violence, seriously and believes that 1 victim is 2 many (see http://1is2manychs.okstate.edu/ for information on resources, reporting options, policies, and the student conduct process.) Sexual harassment and sexual violence are forms of gender discrimination that are not tolerated at OSU-CHS. Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical contact or communication of a sexual nature when:

1. Submission to such conduct or communication is made either explicitly or implicitly as a term or condition of educational benefits, employment, academic evaluations, or other academic opportunities.
2. Submission to or rejection of such conduct or communication by an individual is used as the basis for an employment decision or academic decision affecting such individual.
3. Such conduct is sufficiently severe, pervasive, or persistent and objectively offensive that it has the effect of creating an intimidating, hostile, or offensive situation that negatively affects an individual's academic or employment environment.

It is possible for sexual harassment to occur at different levels: between faculty and students, between staff and students, or between students. Sexual harassment is expressly prohibited. Complaints can be addressed as follows:

**Situations Regarding Faculty and Staff**
Tina Tappana, Title IX Coordinator
OSU-Tulsa, Main Hall
918-594-8105
Tulsa.titleix@okstate.edu

**Situations Regarding OSU-CHS and OSU COM Students**
Angela Bacon, Title IX Deputy Coordinator Student Life
Adriana Livingston, Title IX Deputy Coordinator Student Life
918-561-1950
chssco@okstate.edu
Americans with Disabilities Act
OSU-COM will provide reasonable accommodations to medical students with disabilities, as defined by the Americans with Disabilities Act (ADA) and/or Section 502 of the Federal Rehabilitation Act. Please refer to the College’s Policy on Accommodations for Students with Disabilities for more information about requesting accommodations.

Student Grievance Policy and Procedures for Alleged Discrimination
OSU-COM is committed to addressing student grievances and complaints and promoting a mechanism by which they may be reviewed and resolved. Students with a grievance or complaint should refer to policies for academic and non-academic complaints in the Student Handbook.

Students’ Rights to Privacy
The Family Educational Rights and Privacy Act of 1974 (Buckley Amendment) was designed to protect the privacy of educational records, to establish the right of students to inspect and review their educational records in all offices, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. An OSU student has the right to:
- Inspect and review information contained in his or her educational records.
- Challenge the contents of the educational record.
- Have a hearing if the outcome of a challenge is unsatisfactory.
- Submit an explanatory statement for inclusion in the educational record, if the outcome of the hearing is unsatisfactory.
- Secure a copy of the institutional policy, which includes the location of all educational records.
- Prevent disclosure, with certain exceptions, of personally identifiable information from the educational record.

Withholding Disclosure of Information
Currently enrolled students may withhold disclosure of directory information. A student may file with the Office of the Registrar a written request not to release directory information. The University assumes that failure on the part of any student to specifically request the withholding of directory information as an indication of individual approval for disclosure.

Access to Records
No other information regarding students’ educational records may be disclosed to anyone without written consent of students, except to “school officials” who have a “legitimate educational interest” in the student. Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. Students, or parents of dependent students, may inspect and review their educational records. Some form of photo identification must be displayed before access to educational records will be allowed. Parents of a dependent student may challenge denial of access by producing the most current copy of Internal Revenue Form 1040.

Definitions
"Educational Record" refers to those records which are directly related to a student and are maintained by an educational institution. "Directory Information" includes: student’s name; local and permanent addresses; electronic mail addresses assigned or provided by the institution or provided to the University by the student; telephone number, composite photograph; major field of study; dates of attendance at Oklahoma State University; degrees, honors, and awards granted or received; academic classification such as MSI, MSII, MSIII, MSIV, etc.; gender; educational institutions previously attended; degree(s) held, date(s) granted, and institution(s)
granting such degree(s); dissertation or thesis title; adviser or thesis adviser; participation in officially recognized organizations and activities.

"School official" is defined as an individual currently serving as a member of the Oklahoma State University Board of Regents or classified as faculty, administrative, or professional, and the staff such school officials supervise.

"Legitimate educational interest" is defined as an interest resulting from the duties officially assigned to a school official and which are related to such a school official's responsibility for facilitating the student's development.

**Right to Challenge the Content of Education Records**
A student who wishes to challenge the content of the educational record may do so by submitting a written request to the official responsible for maintaining the record. The request must specify the content being challenged, the grounds for the challenge, and the exact action being sought. If the official grants the request, the change(s) will be made. If the request is denied, the student will be informed and will be given the opportunity to add an explanation to the record and/or appeal the official's decision. See OSU Policy 2-0701 for details. For more information visit: https://registrar.okstate.edu/ferpa/

**Office of Clinical Education Disclosure**
The Office of Clinical Education updates and edits the Clerkship Handbook annually, in order to familiarize students with current clerkship program policies and procedures, and to provide information about the College services available. As clinical clerkship-related policies and procedures change, every attempt will be made to notify students participating in the program. The Office of Clinical Education's primary means of notification is O-Key email. It is the students' responsibility to check their OSU email account for announcements and correspondence from this office. If you have questions, please contact the responsible Course Director or the Office of Clinical Education.

**THE RULES AND PROCEDURAL GUIDELINES OUTLINED IN THIS HANDBOOK WILL GUIDE STUDENTS DURING THEIR CLERKSHIP. THE COLLEGE IS NOT RESPONSIBLE FOR ANY MISREPRESENTATION OF ITS REQUIREMENTS OR PROVISIONS RESULTING FROM:**
- Editorial or print errors in the preparation of this handbook.
- Official changes in college policy approved after the publication of these guidelines.

**Clerkship Program Student Responsibilities**
1. The student must at all times be supervised by a D.O. or M.D. while on rotation.
2. It is the student’s responsibility to become knowledgeable with regard to the clerkship guidelines contained within this document.
3. The student is to maintain excellent social, civil, and professionally appropriate conduct while on clinical assignment during each clerkship rotation. Any behavior which reflects negatively on the College, the assigned site, or the supervisory clinical educators will be referred to appropriate College committee(s) for review.
4. The student will not:
   - Alter or falsify a patient’s chart or record.
   - Neither present themselves as a graduate, nor licensed physician, nor allow themselves to be presented as a graduate or licensed physician [refer to OSU-COM Academic Standards Handbook]. A student suspected of such conduct will be referred to appropriate College committee(s). If deemed appropriate, disciplinary action may be taken.
5. A student is not to publish any material relative to their clinical learning experience (i.e., patient history/physical, diagnosis, consultation, procedure, therapy, etc.), that has not been reviewed and approved, in writing, by the clerkship site Medical Director, or supervising
Physician, OSU-COM Office of Clinical Education and the Office of Clinical Skills and Simulation. This restriction is necessary to ensure and protect patient and facility rights to privacy. Any article written by a student which has been based on information acquired through his or her clinical learning experience must clearly reflect that the clerkship site, hospital, professional staff, and the College in no way endorse the article, even where a review has been made prior to publication. This is to be accomplished by requiring a disclaimer paragraph to appear with each such article written:

“The opinion and conclusions presented herein are those of the author and do not necessarily represent the views of the clinical site, Hospital (name), professional staff, or OSU-COM.”

6. The student is, at all times, responsible to the physician supervisor or his or her designee at each site; and is required to comply with the rules and regulations of the clinical site. It is the student’s responsibility to become knowledgeable regarding each site’s rules, code of conduct, or professional mode of implementing medical care. If there is a question, the student should request the physician supervisor provide him or her with information pertinent to the area of concern. Students should discuss with their supervising physician whether they should withhold questions on differential diagnosis and other treatment decisions until they are no longer in the presence of a patient. It is the student’s responsibility to refrain from performing procedures which are beyond their skill or comfort level. If possible, the student should discuss the level of participation with their supervisor beforehand. The student is responsible for obtaining specific charting instructions from the supervising physician. The student should sign all entries made on a medical record and indicate educational status (i.e., John Doe, MSIII). If the student has problems or concerns with the site’s rules, regulations, or the student’s responsibilities as a medical clerk, the student should immediately consult the Office of Clinical Education or the responsible clinical department coordinator.

7. Students are responsible for their own housing and meals. Some of the rotation sites managed by Clinical Education/Rural & Tribal Medical Education provide housing and meals as a courtesy to students. Students are advised to contact the OSU-COM clinical department or designated Clinical Faculty/DME at the site at least four weeks prior to starting the rotation to inquire about housing availability. OSU-COM Rural Coordinators located in each of six geographical regions of the state can be contacted for assistance on rural rotations. In the event housing is not available at your rotation site, it is the student’s responsibility to find alternate housing or contact your Clinical Education Coordinator to request a change to your rotation.

8. The student’s actual working days and hours shall fall within the clerkship calendar. The specific scheduling of days and hours shall be made with the clinical facility, by the supervising physician, and shall generally conform to the following:
   - A typical working day (or night) is considered to be twelve (12) hours in length; however, there may be instances when the working period exceeds twelve (12) hours.
   - Each clerkship rotation is four (4) weeks in length. The schedules shall be arranged to provide at least two (2) days off out of every fourteen (14) days, as in every other weekend.

9. One hundred percent (100%) attendance is REQUIRED on all clinical rotations. The student is not to leave this assigned facility during assigned hours for any reason, unless his or her absence is acknowledged and approved by the supervising physician. The student is to inform the supervising physician in a timely manner of any anticipated tardiness or absences. Students are to make arrangements with the supervising physician to make up any missed time. The Office of Clinical Education and the clinical department should be contacted if a student or the supervising physician has any questions regarding scheduled or unscheduled time off. Students are to contact the Office of Clinical
Education and the clinical department for directions if their preceptor is unable to supervise them for a portion of their rotation. This typically occurs when a preceptor becomes ill or takes a vacation.

10. Leave of Absence may be requested in accordance with the Leave of Absence and Withdrawal Policy at https://medicine.okstate.edu/com/academics/policies.html.

11. Assignments (patient care, physical and history, etc.) are to be completed and documented before the student leaves the rotation site.

12. The student is to dress appropriately. Unless specified differently by the supervising physician, the student will wear a cleaned and pressed white clinical jacket during all clerkship rotations. Men are expected to wear a shirt, tie, and dress trousers. Women may wear either slacks or a dress. (Please refer to the OSUCOM Student Handbook. An OSU-COM College approved identification tag must be worn at all times. Name tags may be obtained from the Security Department.

13. The student is to attend required hospital conferences related to his or her rotation, unless attendance conflicts with required clinical duties (it is recommended that the student discuss schedule conflicts with the supervising physician). Attendance at conferences or programs off the facility campus during duty-hours requires the approval of the supervising physician. It is the student’s responsibility to secure approval. Such absences are limited to one-half working day (four hours) per week.

14. The student is responsible for scheduling electives and military rotations, as well as securing written approval from the supervising physician. Elective Rotation forms are due to the Office of Clinical Education at least six (6) weeks prior to the first day of the rotation. It is imperative that the student adheres to this requirement, in order to:

- Guarantee participation in an approved rotation for course credit.
- Receive liability insurance coverage for the rotation.

Each clerkship rotation is considered a separate college course and is assigned a course number by the College. The Office of Clinical Education strongly recommends that all elective rotation requests conform to the current rotation block schedule. In the event that an elective rotation request cannot conform to our rotation block schedule, the Office of Clinical Education may approve schedule adjustments on a case-by-case basis. Failure to meet these requirements within the allotted timeframe will result in non-approval of the clerkship rotation. The student will be expected to make-up non-approved rotations and will be scheduled for make-up during vacation time and/or following the regularly scheduled clerkship program which MAY INTERFERE WITH THE STUDENT’S OFFICIAL GRADUATION DATE. All course requirements must be completed prior to graduation.

15. The student must complete a site evaluation for each clerkship course rotation. The evaluations are due within seven days of the completion of each clerkship course rotation and are considered a course requirement for grade submission to the Registrar. Course evaluations for rotations are completed online within LEO.

16. The student must report to their official course rotation on the specified date. Students are to contact the rotation site at least six (6) weeks in advance in order to ensure that the site-specific requirements can be completed in a timely manner. Some sites may contact the student by email with pre-arrival instructions and require documents six (6) to eight (8) weeks prior to the start of the rotation. Failure to complete site-specific requirements may result in removal from the rotation.
17. Completion of all course requirements and obtaining a passing grade on all clinical rotations are mandatory for graduation. Failure of the student to report to the assigned rotation site, unless approved by the supervising physician, the clinical department, and the Office of Clinical Education, will result in the student’s referral to the appropriate College committee(s) with a recommendation of additional clinical training or other action deemed appropriate by the committee(s).

18. It is the student’s responsibility to read and follow requirements defined in all course syllabi. Students should read each syllabus for their upcoming rotations four (4) weeks in advance, as some rotation sites have specific requirements (i.e., background checks, paperwork, drug screening, etc.) that take considerable time to complete. Failure to complete these requirements prior to the first day of the rotation may result in the student receiving a “Needs Improvement” non-cognitive grade and/or the student being required to take a vacation during that timeframe.

19. Students may request a change to an officially approved clerkship rotation. The procedure for requesting a rotation change includes:

- Students may request a change of rotation sites and dates. Students may also request to exchange identical course rotations by swapping with other students. A Change of Rotation form must be provided to the responsible clinical department coordinator. When changing an elective, a new Application for Elective Rotation form must be provided to the Office of Clinical Education.
- If the request is approved, the responsible clinical department notifies the previous/new sites for required rotations, while the student is expected to notify the previous/new sites for elective rotations.
- A change of rotation may not take place unless the Office of Clinical Education or the responsible clinical department coordinator has received the above documents six weeks prior to the start date of the rotation. Forms for clerkship rotation changes may be obtained from the Clerkship Program website at [https://medicine.okstate.edu/com/clinical-education/index.html](https://medicine.okstate.edu/com/clinical-education/index.html).
- Students receiving non-approval of change or exchange of rotation applications may petition the Office of Clinical Education for a review of their applications. The Office of Clinical Education’s decision, in regard to a matter of this nature, will be final.

20. Participation in Graduation Commencement is REQUIRED for all graduating students. Information regarding graduation may be obtained from the Office of Student Life.

21. Many medical facilities require criminal background checks for all physicians, nurses, staff, interns, residents and medical students. The Office of Enrollment Management and the Office of Clinical Education, with the assistance of the OSU legal counsel, have developed a set of guidelines to address this requirement.

- Students are responsible for contacting their clinical sites and determining which background check, if any, is required for their clinical activities.
- Students will be removed from rotation should a positive drug screen be presented.
- Students are responsible for obtaining copies of their own background checks and providing the background checks to the clinical facilities when necessary.
- The cost of background checks will be the responsibility of the student. If financial aid adjustments are necessary, they will be approved.

22. Students should not rotate where the decision for academic assessment, grading, or promotion is made solely by preceptors with a potential **Conflict of Interest**. This scenario can be present in some of the following situations:
• The preceptor is a family member of the student and would be solely responsible for submission of the evaluation for the rotation.
• The preceptor has an established therapeutic relationship with the student, either in an ongoing patient/doctor relationship, or involving sensitive health services (treatment involving psychiatric / psychological counseling, substance abuse, and/or sexually transmitted disease).
• Small clinic practices where one of the above scenarios exist and there isn’t an alternate provider without a conflict available for grading/evaluation of the student.

Students should be aware of these conflicts before rotation selections occur. Contact the Office of Clinical Education to discuss potential alternate rotations or evaluators if a conflict of interest is present.

23. Students are responsible to maintain PROMPT and direct contact with all Office of Clinical Education emails and phone calls. Response is expected within 1-2 business days, and delays beyond this period or slow / no response will be considered unprofessional behavior and further action by the Dean’s office may include a “N” non-cognitive grade. Please update your cell phone and email and keep the office notified of changes.

24. In the case of an emergency on rotation or natural disaster, please contact the Office of Clinical Education to check in. Additionally, please respond if the office attempts a large check-in for emergencies.

Office of Enrollment Management

Requests for Official School Documents
All requests for official documents (transcripts, class rank, board scores, letters of enrollment/certification and MSPE letters) must be made in writing. No documents will be released without the student’s written consent. Requests may be made in person, by mail, or by FAX. Signed requests can be sent via e-mail as a PDF attachment to chsregistrar@okstate.edu. Requests taken with a camera phone cannot be accepted unless converted to a PDF. The Registrar does not retain copies of student background checks.

Transcripts are provided by the OSU-CHS Registrar at no charge. Transcripts from previously attended undergraduate schools are the permanent property of the College and will not be released under any circumstances. Records requests can be submitted using the appropriate form available in the Office of Enrollment Management. The form and more information on the records request process can be found here:

https://medicine.okstate.edu/com/registrar/record-request.html

Current students can request transcripts electronically at my.okstate.edu. Students should verify their campus is OSU-CHS and then use the self-service portal.

Name or Address Changes
A name change on official school records will be made after submission of both of the following:

• Copy of new driver’s license; and
• Copy of new social security card
Medical Library

The Medical Library provides biomedical information and services to support education, research, patient care, and community outreach. With locations at OSU-CHS, OSU Medical Center in Tulsa, and OSU COM at the Cherokee Nation, students have access to a variety of resources, consisting of more than 8,000 electronic journals, 2,500 print books, and 4,800 electronic books. Additional books and resources can be purchased on demand within a few days or obtained via interlibrary loan often within a few hours. Students have access to research databases and clinical decision support tools, including Clinical Key, Google Scholar, Scopus, UpToDate, and VisualDx, among many others.

Clinical Rotations Library Guide: https://libraryguides.medicine.okstate.edu/clinical_rotations

Medical Library website: https://medicine.okstate.edu/library/

Facilities
The Medical Library provides eight group study rooms with presentation computers and large TV monitors (seating for 58), 213 individual study carrels in the Medical Library and Tandy Academic Building, and a variety of open seating areas (seating for 81); seating for 352 in total. The OSU Medical Center Library has group study rooms and reading areas. The OSU COM-CN Library is surrounded by student spaces, including 110 study carrels and group study rooms that are equipped with large wall-mounted whiteboards, computers and flat screen interactive monitors. Inside the library, there are computers, printers (regular, poster and 3-D), 4 standing workstations and open seating for 20.

Contact Us
For a complete listing of library staff and areas of responsibility please visit: https://medicine.okstate.edu/library/library-staff.html. We are happy to assist you!

Regular Hours (same as Campus)
Monday - Sunday 5:00am - Midnight

Reference Assistance Hours
Monday - Friday 8:00am - 5:00pm

Holidays and Special Hours
Please check the Hours and Holidays schedule on the library’s website.

Library Contact Numbers
OSU-CHS 918-561-8449
OSU COM-CN 918-525-6298
OSU Medical Center 918-599-5298

Simulation Medicine Resources
Simulation resources will be utilized throughout your clerkship rotations and during didactic week courses. A simulation orientation is required prior to use of simulation resources, which was completed during your previous course years. Resources to be implemented during your clerkship may include task trainers, standardized patients, patient models, high and low fidelity simulators, surgical simulators, and virtual patient encounters.
Tuition & Fee Payment

Students whose tuition and fees have not been paid by the posted dates (TBA by the Office of Enrollment Management) will not be officially enrolled in any clerkship rotation. The account for students with outstanding balances will be placed on hold and will not be allowed to enroll in courses or request transcripts. The supervising physician will be notified of the student’s status. The non-compliant student will not receive credit for this period of time. This time must be made up and could delay graduation.

Please contact the OSU-Tulsa Bursar’s Office for current tuition and fee schedule at (918) 594-8320.

Student Health & Hospital Insurance

All students are required to secure and maintain health insurance and are responsible for updating and tracking their immunizations while enrolled in the Clerkship Program at OSU COM. Students must provide OSU COM and/or the clinical rotation site with proof of health and hospital coverage if requested. The Office of Clinical Education does not retain student immunization records or proof of health insurance.

Malpractice Insurance

Liability insurance is provided by OSU COM for each student completing an approved rotation or activity during the Clerkship Program. All students shall be supervised by an on-site licensed physician. All rotations must be approved by the Office of Clinical Education and/or responsible clinical department six weeks prior to beginning the rotation in order to be covered by liability insurance and receive course credit. Current insurance coverage will apply anywhere in the world provided that the claim is reported to the carrier and the suit is brought within the United States of America, its territories or possessions, Puerto Rico, or Canada. Requests for proof of liability coverage may be directed to the Office of Clinical Education. The Certificate of Coverage for OSU COM is updated in June each year, and can be made available to students, preceptors, and sites upon request.

High Risk Exposure Policy & Procedures

Blood Borne Pathogen (BBP) Exposure Procedures

(Please refer to the most recent OSHA and CDC guidelines for updated information.)

It is the policy of Oklahoma State University Center for Health Sciences (OSU-CHS) that all students having occupational exposure to blood or other potentially infectious materials will be offered the post-exposure evaluation and follow-up required by OSHA. Should an exposure incident occur, it must be immediately reported to the student’s supervising physician, site administration, OSU Safety and the Office of Clinical Education at OSU-CHS.

It is the policy of the College to offer immediate medical evaluation and follow-up to all students who have an exposure incident. This service is provided at no charge to the student. All costs, at Medicare approved rates, for the student will be reimbursed by the College while the site will incur all costs for source patient testing and follow-up. All post-exposure evaluations and follow-ups must remain confidential. If an exposure incident occurs, the student must identify the source patient, if known. The incident must be documented on the appropriate student injury report form obtained via OSU Safety Office by calling 918-561-8391 or 918-281-2755. When complete, the report can be faxed to 918-561-1248.

The source patient will be contacted for consent and appropriate testing should the HBV/HCV/HIV antibody status be unknown - the site will incur all costs for source patient testing and follow-up. Test results should be reported to OSU Safety Office within 48 hours by faxing them to 918-561-1248 or calling 918-561-8391 or 918-281-2755.
Post-exposure evaluation should include the following:
- A blood sample will be drawn and tested as soon as feasible for HBV/HCV/HIV status.
- Counseling will be provided.
- Follow-up will be provided by Occupational Health as needed.

Steps To Take in Case of An Exposure Incident:

Tulsa & Cherokee Nation Campus – Exposure Procedure
- Immediately flush/wash, provide care to exposure site.
- Notify your supervisor and OSU Safety Office at 918-561-8391 or 918-281-2755.
- Immediately report to Employee Health at the rotation site so source labs can be drawn. Forward results to OSU Houston Center at fax 918-561-1248.
- Student should proceed to have blood drawn at OSU Houston Center, 717 S Houston Ave, Suite 510, Tulsa, OK 74127, 918-561-8391 or 918-281-2755 if the incident occurs between 8am-5pm, M/F. Afterhours exposures will be sent to OSUMC-ER, 918-599-5373.
- All follow up testing will be at OSU Houston Center coordinated with Student Health Nurse.
- If post-exposure prophylaxis is required have the physician call Walgreens at 717 S Houston Ave, at 918-585-1957 and inform the clerk that this prescription is for an OSU Medical Student. Send the bill to OSU-CFS Student Health 2401 Southwest Blvd, Tulsa, OK 74107, or fax to 918-561-1173. Please take school ID to pharmacy to pick-up your prescription.

Off Campus - Exposure Procedure
- Immediately flush/wash, provide care to exposure site.
- Notify your supervisor and OSU Safety Office at 918-561-8391.
- Immediately report to Employee Health at the rotation site so source labs can be drawn. Forward results to OSU Safety Office at OSU Houston Center, fax 918-561-1248.
- Employee Health will also draw student blood at rotation site, forward results to OSU Safety Office at OSU Houston Center at fax 918-561-8391. Send bill for student lab to OSU-CFS, 2401 Southwest Blvd, Tulsa, OK 74107, or fax to 918-561-1173. All follow up testing will be conducted at exposure rotation site unless you are assigned to the Tulsa area when the next lab is required.
- If post-exposure prophylactic medications are required have the physician call the nearest pharmacy and inform the clerk that this prescription is for an OSU Medical Student. Send bill to OSU-CFS, 2401 Southwest Blvd, Tulsa, OK 74107, or fax to 918-561-1173

OSU COM Required Documents (Student Responsibility)
Students will be required to demonstrate possession of these documents to the Office of Clinical Education for verification before Rotation 1 begins. Anyone failing to do so will not be allowed to begin Rotation 1. The Office of Clinical Education verifies but does not retain records. Students will be required to submit these documents for verification to each rotation site. It is the student’s responsibility to keep and maintain all required documents. The University provides secure Cloud storage at MedProctor. To log in for the first time: https://www.medproctor.com/student-help.

- Complete the Student Agreement Survey
- Background Check
- HIPAA Certification
- ACLS and BLS Certification
- Blood Borne Pathogens Certification
- Personal Health Insurance Coverage
- Certificate of Malpractice Coverage (Available from the Office of Clinical Education)
- Up-to-date Immunization Records
- TB Test Results
- Measles, Mumps, Rubella, Varicella, Hep B SAg, Hep B Ab, and Hep C Ag

Rotation Site Requirements (Student Responsibility)
Student requirements vary from site-to-site.

*Mandatory Required
# Clerkship Program & Track Rotation Requirements

## Traditional Track Rotations

### 3rd Year
- CLME 9110 Core Medicine
- CLME 9145 Req Rural Clinic
- CLME 9155 Req Pediatrics
- CLME 9165 Req OMM
- CLME 9175 Core OB/GYN
- CLME 9185 Req Psychiatry
- CLME 9195 Core Surgery
- CLME 9235 Req Family Med

### Requires Pre-Requisites
- CLME 9215 Community Hospital
- CLME 9255 Req Emergency Medicine

### Other
- CLME 9815 PC Elective
- CLME 9855 Elective 1
- CLME 9865 Elective 2
- CLME 9875 Elective 3
- CLME 9885 Elective 4
- CLME 9265 Elective 5
- CLME 9275 Elective 6
- CLME 9375 Elective 7
- CLME 9385 Elective 8
- CLME 9395 Elective 9
- CLME 9405 Wellness I (required)
- CLME 9415 Wellness II (optional)

## Required Rural Medical Track Rotations

### 3rd Year
- CLME 9110 Core Medicine
- CLME 9155 Req Pediatrics
- CLME 9165 Req OMM
- CLME 9175 Core OB/GYN
- CLME 9185 Req Psychiatry
- CLME 9195 Core Surgery
- CLME 9235 Req Family Med
- CLME 9245 Req Community Clinic

### Requires Pre-Requisites
- CLME 9215 Community Hospital
- CLME 9255 Req Emergency Medicine
- CLME 9285 Sub Internship 1
- CLME 9295 Sub Internship 2
- CLME 9805 Selective I
- CLME 9325 Selective II
- CLME 9335 Selective III

### Other
- CLME 9855 Elective 1
- CLME 9865 Elective 2
- CLME 9875 Elective 3
- CLME 9885 Elective 4
- CLME 9265 Elective 5
- CLME 9315 Sub Internship 3
- CLME 9405 Wellness I (required)
- CLME 9415 Wellness II (optional)

## Required Tribal Medical Track Rotations

### 3rd Year
- CLME 9110 Core Medicine
- CLME 9155 Req Pediatrics
- CLME 9165 Req OMM
- CLME 9175 Core OB/GYN
- CLME 9185 Req Psychiatry
- CLME 9195 Core Surgery
- CLME 9235 Req Family Med
- CLME 9425 Req Tribal Clinic

### Requires Pre-Requisites
- CLME 9215 Community Hospital
- CLME 9255 Req Emergency Medicine
- CLME 9285 Sub Internship 1
- CLME 9295 Sub Internship 2
- CLME 9805 Selective I
- CLME 9325 Selective II
- CLME 9335 Selective III

### Other
- CLME 9855 Elective 1
- CLME 9865 Elective 2
- CLME 9875 Elective 3
- CLME 9885 Elective 4
- CLME 9265 Elective 5
- CLME 9315 Sub Internship 3
- CLME 9405 Wellness I (required)
- CLME 9415 Wellness II (optional)
COMAT Subject Examination Requirements

COMAT exams are course requirements for the following clinical rotations:

- Emergency Medicine
- General Surgery
- Internal Medicine II
- OB/GYN
- OMM
- Pediatrics
- Psychiatry
- Family Medicine

A COMAT is given following required clerkship rotations. Students must pass each COMAT with a minimum standard score of 90 to pass the clerkship rotation.

If a student does not pass the COMAT, the course director/Coordinator for the clerkship rotation must contact the student within 10 days of being notified of the student’s failure. The course director/Coordinator will schedule a meeting with the student to discuss the results of the COMAT and plan for formal remediation.

Within two weeks of receiving a notice of a student failing a COMAT, the course director will submit to the Associate Dean of Clinical Education and the Director of the Office of Academic Success the details of the student’s formal remediation process, which shall include plans on scheduling to re-take the COMAT.

Any student who receives a failing grade on any COMAT after receipt of a failing grade on a prior COMAT must meet with the Academic Standards Committee (ASC). The ASC will forward a recommended corrective action to the Dean or designee for decision and implementation.

Each student must pass each subject COMAT with a minimum standard score of 90 before taking COMLEX Level 2-CE, unless the Dean or designee grants an exception upon a student’s request.

National Board Examinations, Board Review, & COMSAE

Students who receive a passing COMLEX Level 1 score prior to the start of clerkship rotation 1 may begin a patient-facing clerkship rotation for clerkship rotation 1. Students who have not received a passing COMLEX Level 1 score, but who have sat for a COMLEX Level 1 prior to the start of clerkship rotation 1, may begin a maximum of two (2) non-patient-facing clerkship rotations (Research or Wellness I elective clerkship rotation for R1). Students who have not received a passing COMLEX Level 1 score and who have not sat for a COMLEX Level 1 prior to the start of clerkship rotation 1 may begin a maximum of two (2) non-patient-facing clerkship rotations (Study or Wellness I elective clerkship rotation). In order to be approved for a Study elective, students are required to submit a completed Study elective application. Please refer to the Academic Standards Handbook for additional information.

Academic advisement is scheduled during all Didactic Weeks and COMLEX Level 2-CE board preparation is scheduled during Didactic Week 4. Before taking COMLEX Level 2-CE, a student must demonstrate a minimum score as determined by the Office of Academic Success on a timed and proctored Level 2 COMSAE. COMSAEs are administered during Didactic Week 3 and Didactic Week 4.
A student who has not received a passing COMLEX Level 2-CE score by December 31 of the student’s OMS-IV year may be dismissed from OSU-COM. Students not scheduled to graduate by May of the OMS-IV year may receive a different deadline as recommended by ASC in consultation with other parties it deems relevant. The Dean or designee may adopt or reject the ASC’s recommendation. Students who fail a COMLEX must meet with the ASC. This requirement applies to any failure of any COMLEX Level 1 or Level 2-CE. The ASC will then make a recommendation to the Dean or designee, who will determine what course of action to take. Please refer to the Academic Standards Handbook for additional information.

**General Rotation Information**

While the Office of Clinical Education is more than happy to provide assistance and guidance, it is the sole responsibility of each student to maintain and understand their rotation schedule, as well as secure and submit applications for all elective and primary care elective rotations. Students are required to contact their preceptor for an upcoming rotation at least six weeks in advance in order to ensure that site-specific requirements can be completed in a timely manner. Failure to complete site-specific requirements may result in removal from the rotation. Applications for schedule change, as well as those for elective rotations, must be submitted at least six weeks prior to the start date.

**Loss of Rotation Availability for Core / Required Rotations**

In the event of loss of rotation availability for CORE/Required rotations at any site, affected students will be redirected to our main teaching hospital, OSU Medical Center, and affiliate sites by the rotation coordinator faculty. The amount of loss of any single site will be absorbed into this larger pool of availability while we actively pursue replacement of lost rotation availability.

**Comparable Educational Experiences**

OSU-COM will ensure comparable educational experiences and equivalent methods of assessment across all CORE clinical rotation sites by ongoing review of the following measures:

(a) COMAT scores based upon subject and site,
(b) Student evaluations,
(c) Annual site visits,
(e) Monthly student feedback report,
(d) Annual student feedback scores and comments,
(e) Course Director action steps to follow and close the loop on annual site visit recommendations,
(e) Other measures, coordinating with the Director of Office of Academic Success, reviewing COMAT scores, COMSAE test gating, COMLEX pass rates, residency placement, etc.

These measures and results are reviewed by the Clinical Education department annually, and the report and recommendations are provided to the Years 3 and 4 Curriculum Coordinating Committee for approval, then Curriculum Oversight Committee, following flow chart approval cycle up to Council of Deans. All CORE rotations follow a standard consistent syllabus for their subject which outlines the core educational learning objectives and is reviewed at each site visit.

**Student Evaluations & Grades**

Students are responsible for scheduling time to receive feedback from their preceptors. Students are also responsible for verifying their preceptors email address and following up until the preceptor has completed their evaluation. Students are also required to complete a course evaluation for every rotation (elective and required) within seven (7) days of completing the rotation. Students should schedule a meeting with their supervising physician during the last week, before the end of the rotation, to discuss their performance.
A clerkship fail grade is earned when a student meets two (2) or more evaluation failure criteria (see below), based on performance at rotation site and on OSU departmental requirements. A grade will not be assigned until student passes the COMAT (see section 11 of Academic Standards Handbook). A Clerkship fail grade may be assigned when a student displays any of the following:

1. Seldom, if ever, considers the structure-function relationships of patient evaluation and treatment (e.g., does not consider patient's inherent healing mechanisms, does not consider the impact of somatic dysfunction on disease processes).

2. Knowledge base has significant deficits. For example: Has consistent difficulty with the clinical application of basic science principles and/or clinical information to patients' problems.

3. Consistently misses essential information, has poor organization and is repeatedly inaccurate.

4. Exam (physical or mental status) shows serious deficits in either technique, organization, or thoroughness.

5. Written and/or verbal presentations frequently lack clarity, organization, or thoroughness.

6. Observes development of patient management plan with preceptor; but is unable to meaningfully contribute to its development.

7. Inadequate or disorganized communication interferes with patientcare.

8. Acts in ways that raise serious concern about integrity, reliability, responsibility, or ability to work with others.

9. Shows lack of ability to establish rapport, relate empathetically, or be sensitive to differences in patients (e.g., issues of culture, religion, age, gender, sexual orientation, cognitive or physical disabilities).

10. Unable to critically evaluate medical information and its sources or integrate research evidence into clinical practice.

11. Is completely unaware of the medical system and how it relates to clinical care.

12. Fails to complete required reading, quizzes, or assignments given during rotation. [Includes tasks assigned by the clinical site or by the OSU department.]

A clerkship pass grade is earned when a student passes the Evaluation and COMAT.

A clerkship Honors grade may be considered at the discretion of each department. Additionally, non-cognitive grades will be submitted for all courses. **Students who do not comply with OSU-COM Evaluation policy will be given an “N” non-cognitive grade for not complying with OSU-COM Evaluation policies.**

Inquiries regarding course grades may be directed to the Coordinator of Student Records in the Office of Student Affairs.
Military Rotations
Students participating in Military rotations are required to notify the Office of Clinical Education of their scheduled rotation by completing an Application for Rotation and provide to the College the following:

- A phone number at the site where the student may be contacted in case of an emergency or College business.
- A proper mailing address.
- The name and signature of the supervising physician to whom the student is assigned at the rotation site.

Holidays and Wellness
Students in their third year may receive time off during Thanksgiving and Christmas. In some cases, depending on the rotation, students may be required to rotate through those holidays. Students receive one Required Wellness I rotation and one Optional Wellness II rotation during the Clerkship. Wellness rotations may be requested for any unscheduled rotation. Extracurricular rotations may be requested during these Wellness rotation periods. Wellness rotation requests and/or extracurricular rotation requests must be submitted to the Office of Clinical Education six weeks prior to the vacation or rotation.

Clerkship Course Descriptions

Required Family Medicine
CLME 9235  Req Family Medicine  4 Weeks
All students rotate through the OSU Health Care Center, OSU Eastgate or Cherokee Nation Outpatient Clinic during their 3rd year of medical training. This course is designed to give students the opportunity to experience of patients in an ambulatory setting.

Required Pediatrics
CLME 9155  Req Pediatrics  4 Weeks
The Pediatric rotation is designed to give students a primary care clinical experience in ambulatory pediatric settings.

Required Psychiatry
CLME 9185  Req Psychiatry  4 Weeks
The Psychiatry rotation is designed to familiarize the student with the diagnosis and treatment of psychiatric disorders.

Required Osteopathic Manipulative Medicine (OMM)
CLME 9165  Req OMM  4 Weeks
The Osteopathic Manipulative Medicine (OMM) clerkship is designed to provide students with an opportunity to experience OMM in the clinical setting. Students will perform Osteopathic Manipulative Treatment under the supervision of a licensed osteopathic physician. The rotation is four weeks in length. The student's learning experience will be divided among the hospital setting, ambulatory clinic and independent learning.

Core Surgery
CLME 9195  Core Surgery  4 Weeks
The goal for the clerkship is to prepare the student to work effectively, as a primary care provider, within a multidisciplinary medical team caring for the surgical patient. The curricula will emphasize the importance of
evaluation of potential surgical patients, the appropriate referral to a surgical specialist, and effective communication with both the patient and the specialist.

---

**Core Medicine**

CLME 9110  
Core Medicine  
8 Weeks

The medicine clerkships, which consists of an 8-week rotation, are designed to acquaint third-year medical students with care of acutely ill, hospitalized patients. Case discussions, clinical pathology conferences, didactic lectures, and bedside teaching accompany patient care.

---

**Core Obstetrics & Gynecology**

CLME 9175  
Core OB/GYN  
4 Weeks

The Obstetrics and Gynecology clerkship has been designed to provide the student with experience in Women’s Health. Students will participate in ambulatory and inpatient care of routine and high-risk obstetric patients. Students will also be exposed to common ambulatory gynecologic issues and will be able to understand the work-up and management of these issues. Gynecologic exposure will continue in the hospital setting, where students will be able to participate in a variety of outpatient and inpatient procedures.

---

**Primary Care Elective**

CLME 9815  
Primary Care Elective  
4 Weeks

The following guidelines are to be followed when applying for a Clerkship Primary Care Elective rotation *(must be with Board Eligible or Board-Certified physician, D.O. or M.D.)*:

Primary Care electives include:
- Emergency Medicine
- Family Practice/OMM
- General Internal Medicine
- General Pediatrics
- Obstetrics/Gynecology
- Psychiatry

Each student may request to utilize his or her Primary Care Elective rotation in a medical situation of their choosing, providing the rotation request fulfills guideline criteria.

---

**Electives**

| CLME 9855 | Elective 1 | 4 Weeks |
| CLME 9865 | Elective 2 | 4 Weeks |
| CLME 9875 | Elective 3 | 4 Weeks |
| CLME 9885 | Elective 4 | 4 Weeks |
| CLME 9265 | Elective 5 | 4 Weeks |
| CLME 9275 | Elective 6 | 4 Weeks |
| CLME 9375 | Elective 7 | 4 Weeks |
| CLME 9385 | Elective 8 | 4 Weeks |
| CLME 9395 | Elective 9 | 4 Weeks |

Each student may request to utilize his or her elective rotations in either an osteopathic or an allopathic medical situation of their choosing, under the supervision of an approved licensed practicing physician.
Two electives may be research based under the direction of an OSU Faculty Ph.D. and/or one elective may be taken as a second Wellness rotation if needed. Students are encouraged to schedule elective rotations in a variety of clinical practice areas for broad based clinical exposure. The Office of Clinical Education does not recommend scheduling elective rotations in only one clinical specialty area. Students may split an elective into 2-week sections for a maximum of 2 rotations, if the total rotation switch is contained within a single semester, and both 2-week sections must be in the same category of elective. Wellness can be used as an optional 2-week section. Students with extraordinary circumstances may submit a petition for an exception to Associate Dean of Clinical Education.

Virtual/Online Electives

Approval to complete any virtual elective must be obtained by Dr. Christopher Thurman, Associate Dean for Clinical Education. A student may complete a total of two, four-week virtual electives. Prior to obtaining approval from Dr. Thurman, a student must A.) Obtain the name and email address of the board certified or board eligible physician preceptor, B.) Ascertain whether the preceptor is willing to complete the OSU preceptor evaluation, C.) Obtain a copy of the site’s evaluation and present to the Office of Clinical Education for approval if preceptor is unwilling to use the OSU evaluation, and D.) Submit an Elective Application to the Office of Clinical Education for enrollment in LEO. Virtual electives may not take the place of a Primary Care Elective.

Rural & Tribal Medical Education Rotations

**Required Rural Clinic (Traditional Track only)**
CLME 9145 Req Rural Clinic 4 Weeks
The Rural Clinic rotation provides training for third year students in ambulatory care, as well as community health and social experiences in rural communities. Students are assigned to supervising physicians at sites away from major urban areas. Complimentary housing for Rural Clinic is available at no cost to the student and is coordinated through the OSU Rural Coordinators.

**Required Community Clinic (Rural Medical Track only)**
CLME 9245 Req Community Clinic 4 Weeks
This clerkship give Rural Medical Track students continued preparation for clerkship training in rural and community-based rotations. Students participate in didactics covering topics relating to rural health care, i.e., distance learning, lecture prep, community resources, telemedicine and interdisciplinary health care. Students spend the remainder of the day in a physician’s office in a small community setting. Complimentary housing is available and coordinated through the OSU Rural Coordinators.

**Required Emergency Medicine**
CLME 9255 Req Emergency Medicine 4 Weeks
The Emergency Medicine rotation is designed to give students experience in the management of trauma and medical emergencies. Complimentary housing is available outside of the Tulsa or Oklahoma City area and is coordinated through the OSU Rural Coordinators.

**Community Hospital**
CLME 9215 Community Hospital 4 Weeks
Community Hospital assignment is 4 weeks in length. The community hospital-based rotation provides students experience in areas such as hospitalist role, internal medicine, obstetrics, surgery, emergency medicine, etc. The course is designed to allow the student an opportunity to manage patient care in a hospital setting, and to perform basic diagnostic procedures which are routinely
performed in community hospitals.

**Sub Internships (Rural and Tribal Medical Track Only)**

Required rotations that give Rural Medical Track and Tribal Medical Track students training at a primary care residency site to participate in hands-on training alongside Residents and Attendings. Allows RMT and TMT students to gain a more in-depth understanding of the relationship between the residency program, the hospital and the community and gain insight into medical knowledge and skill level needed for residency. All RMT and TMT students will complete two Sub-I’s at an in-state rural or tribal residency site. If a rural or tribal residency is not available in the student’s chosen primary care field, the student will complete one Sub-I with OSU and the second Sub-I at another in-state residency. Complimentary housing is available at some sites and is coordinated through the OSU Rural Coordinators.

Required rotations that give RMT and TMT students training in select specialties to gain a more in-depth understanding of the relationship between the rural primary care physician and the specialist. The rotation provides an opportunity to gain experience in identified, specific areas of need or interest that could assist a rural physician to better serve the rural population. Complimentary housing is available at some sites and is coordinated through the OSU Rural Coordinators.

- All RMT Selective rotations must be in state
- TMT Selective rotations - all may be done in state, maximum of 2 are allowed at out-of-state tribal sites

**Required Tribal Clinic (Tribal Medical Track Only)**

This clerkship gives Tribal Medical Track students continued preparation for clerkship training in tribal and community-based rotations. Students participate in didactics covering topics relating to tribal health care, i.e., distance learning, lecture prep, community resources, telemedicine and interdisciplinary health care. Students spend the remainder of the day in a physician’s office in a small community setting. Complimentary housing is available and coordinated through the OSU Rural Coordinators.
Summer Rural and Tribal Externships
CLME 8112.001 Summer Rural/Tribal Externship 2 Weeks (Optional)
The Summer Rural or Summer Tribal Externship is a 2-credit hour course. The two-week rotation is designed to reinforce a student’s interest in a rural or tribal practice and to prepare the student for their rural or tribal clerkships. This clerkship is comprised of a clinical office experience in a small rural or tribal community and includes community service and interdisciplinary shadowing. Rural Medical Track students and Tribal Medical Track students are highly encouraged to enroll in the Summer Rural or Tribal Externship. Complimentary housing is available at some sites and is coordinated through the Rural Medical Education Coordinators.

Global Health Track

CLME 8115 Summer Global Health Externship Taken between 2nd & 3rd years
CLME 9355 Fall Global Health Selective Taken in Fall or Spring of 3rd/4th year
CLME 9455 Winter Global Health Selective Taken in Fall or Spring of 3rd/4th year

We offer a Global Health Track for medical students interested in global health topics and international outreach. The Global Health Track is designed to provide students an opportunity to explore issues in the delivery of health services in other countries, and to provide a survey of issues related to healthcare in other countries.

Global Health Track can be taken congruently with Rural Medical Track or Tribal Medical Track.

Requirements: Three OSU global health travel courses and attendance of small group sessions (including at least one four-week selective). There is no deadline for application, and students wanting to take a travel course elective are not required to be in the track.

Upon completion the student will receive a minor in global health, be honored at an awards ceremony, and receive a global health notation on their transcript.

Contact the Global Health Coordinator to enroll: john.mumey@okstate.edu.

Clerkship Forms & Applications

Students can find all forms and applications in the Years 3 and 4 Curriculum Course on the Office of Clinical Education website. Hardcopy forms and applications are available in the Office of Clinical Education. Rural Medical Track students contact OSU Rural Coordinator for RMT specific forms.

Request for Rotation Change

To request a rotation schedule change, students are required to complete and submit the Change of Rotation Application to the affected clinical department(s) for review. The Course Directors have the sole authority to approve or deny a Change of Rotation Application. Approved applications must be signed by the Course Director and submitted to the Office of Clinical Education at least six weeks prior to the start of the rotation(s) listed, or the request will not be considered. The Office of
Clinical Education will not approve changes without the explicit consent of the Course Director. Applications for rotations at rural sites must also be signed by a Rural Health Coordinator.

**Application for Elective Rotation**

All students are required to complete a primary care rotation, nine elective rotations, and one, four-week Wellness rotation during the Clerkship Program. Students must complete their portion of the Application for Elective Rotation, submit the application to the preceptor for approval, and ensure that the Office of Clinical Education receives the final document at least six weeks prior to the start of the rotation listed. Application for elective rotation must be returned by rotation site if electronic signature is used to confirm the rotation.

**Application for Study Elective**

New Criteria for Study Month COMLEX Level 2:
- Have already taken both Wellness Electives
- AND
- Failed COMLEX Level 1 and/or
- Failed 2 or more COMATs and/or
- were in Category 3 of the COMLEX Level 1 Gating Criteria and/or
- Scored ≤400 on Didactic Week 3 COMSAE

**Exception to the Rotation**

Students requesting to be absent from a rotation for any reason must complete and submit the Exception to Rotation Application before taking time off. Please be aware that any absence approved may require makeup time or work. This form is required for all clinical rotations and must be submitted to the Course Director for final approval.

**Application for International Elective Rotations**

Any student wanting to complete an elective rotation outside of the United States must complete and submit the Application for Foreign Elective Rotation at least 90 days to the Office of Clinical Education prior to the start date. It is the responsibility of the student to read the International Elective Rotation Processes and Procedures carefully prior to finalizing any travel plans.

**Requests for Letters of Good Standing**

Many rotation sites require, among other things, students to provide a Letter of Good Standing indicating your academic status. All requests must be submitted to the Office of Clinical Education using the online Letter of Good Standing form available on our website. It is the responsibility of the student to know, and meet, the site deadline for submission of all documentation. Please allow at least 48 hours for processing.
