

EMERGENCY MEDICINE REVIEW

NEW ONLINE SYSTEM!

- Get immediate access to 1-B and AAFP prescribed credits
- Courses accessible 24 hours a day
- Over 100 hours available
- 40 different specialties covered
- AOA Category 1-B accredited and AAFP prescribed credit

CME credit can be earned in the comfort of your own home or office by viewing/listening to online programs. The online CME program is a convenient way of meeting CME requirements.

HOW THE PROGRAM WORKS:

1. Log in to osu-cme.com
2. Browse online course catalog.
3. Purchase online courses.
4. Get immediate access to the course.

Comprehensive Care and Research Center
TULSA

Cancer Treatment Centers of America® (CTCA) is a comprehensive cancer care network that serves adult patients with cancer.

CTCA® offers surgery, radiation, chemotherapy, interventional oncology, genomic testing, precision cancer treatment and immunotherapy. At the same time, we support patients' overall well-being with therapies designed to enhance their quality of life while managing side effects during and after treatment. We deliver care through the CTCA network, which includes locations in Atlanta, Chicago, Philadelphia, Phoenix and Tulsa. Our multidisciplinary clinical teams are organized by the CTCA Cancer Institutes, an assembly of skilled clinicians across the enterprise, leading the expansion and enhancement of specialized, disease-specific cancer care. These experts work together using evidenced-based clinical pathways to deliver quality care and stay abreast of clinical innovations.
