- 

### Academic History

Date of Matriculation in Medical School: 08/03/2020

Date of Expected Graduation from Medical School: 05/10/2025

Extension(s), leave(s) of absence, gap(s), or break(s) in the student's educational program:

Information about the student's prior, current, or expected enrollment in, and expected graduation from dual, joint, or combined degree programs:

Coursework the student was required to repeat or otherwise remediate during his/her medical education:

Adverse action(s) imposed on the student by the medical school:

*\*If these sections do not apply, the notation "Not Applicable" will be used*

## **Academic Progress**

### **Professional Performance**

Students matriculating at OSU-COM are considered student members of the osteopathic medical profession. As such, they are expected to conduct themselves in a manner consistent with the standards of the osteopathic medical profession. All OSU-COM students must maintain professionalism in the following areas: reliability and responsibility, maturity, judgment, respectful behavior, honesty and integrity, and emotional stability.

### **Preclinical Coursework**

Mark Medical has met all requirements during **his or her or their (students have the option to change this pronoun)** preclinical coursework.

### **Clerkship Evaluation Structure**

Three categories of grades can be assigned for core clerkships: Pass (P), Pass with Honors (H), or Fail (F). A clerkship Pass (P) grade indicates that a student has successfully passed the requirements of the clerkship. A clerkship Pass with Honors (H) grade indicates that a student has fulfilled the criteria for a passing grade and has met honors criteria for the clerkship, which is determined individually for each clerkship. A clerkship Fail (F) grade occurs when a student meets two or more evaluation failure criteria (see the Clerkship Handbook for a listing of the criteria). Students who earn a Fail (F) grade in a clerkship will be referred to the Academic Standards Committee and will be required to remediate the clerkship. All elective clerkships are graded using only a Pass (P) or Fail (F) grading system.

Clinical COMAT examinations are administered at the completion of each of the following core clerkships: Emergency Medicine, Family Medicine, Internal Medicine, Obstetrics/Gynecology, Osteopathic Principles and Practice, Pediatrics, Psychiatry, and Surgery. Students must pass each Clinical COMAT with a standard score of at least 90, which equates to one standard deviation below the standard mean of 100. A grade is not assigned for these clerkships until a student passes the Clinical COMAT. Students must sit for and pass all Clinical COMAT examinations prior to sitting for COMPLEX Level 2-CE, with the exception of the Emergency Medicine COMAT as the Emergency Medicine clerkship must be passed prior to graduation but is not required during Year 3. For more information about the academic requirements at OSU-COM, please visit <https://medicine.okstate.edu/com/academics>.

“

## **Summary**

Based on academic performance during preclinical coursework, Mark Medical has a cumulative GPA of \_\_\_\_ and ranks of 175 medical students in the Class of 20XX at Oklahoma State University College of Osteopathic Medicine. Preclinical coursework performance does *not* include performance during clinical clerkships or the student's COMLEX and/or USMLE scores.

Sincerely,

Dennis Blankenship, D.O., FACOEP, FACEP  
Dean, OSU College of Osteopathic Medicine  
Tulsa, OK
