

# Out-of-State Tuition Waiver

The OSU College of Osteopathic Medicine is now offering admitted students with permanent residency in Arkansas, Kansas and Missouri an out-of-state tuition waiver if they score at least a 500 on their Medical College Academic Test (MCAT) and have a 3.5 overall GPA.

OSU-COM's mission is to educate primary care physicians with an emphasis to serve in rural or underserved communities. More than half of OSU-COM graduates practice a primary care specialty in areas such as: Family Medicine, Internal Medicine, Pediatrics, Obstetrics & Gynecology, Emergency Medicine, and General Surgery.

While OSU-COM's mission is focused on primary care and rural medicine, our advanced medical school training and curriculum prepares medical students for all specialties of medicine including Anesthesiology, Orthopedic Surgery and Radiology.

"I chose OSU-COM because of its reputation of teaching its students how to treat the patient, and not just the disease. OSU-COM is preparing me for a future in medicine by providing me a variety of resources for my medical training."
