Graduate Medical Education Policy

Approved by the GMEC (Graduate Medical Education Committee) on November 27, 2018

Effective Date: July 1, 2019

Review Date: May 2021

Next Review Date: May 2023

Policy Title: Promotion Reappointment Renewal Policy

Purpose: To describe the methods of Reappointment and Promotion

Policy Type: Sponsoring Institution/Sponsored Program Policy

Appointments, promotions, and reappointments are decided upon annually for the Trainee.

Reappointments are not automatic. Reappointments are based on the Trainee meeting requirements as outlined by their specific training program and based off established guidelines that can be found through the ACGME (Accreditation Council for Graduate Medical Education) program requirements.

Reappointments allow Trainees to be advanced to the next academic year.

Reappointments for the subsequent academic year do not necessarily indicate promotion.

Promotion requires satisfactory progress via cumulative evaluations, professional growth, and scholarly evaluation by faculty through the Clinical Competency Committee (CCC).

The CCC, in collaboration with the Program Director determines if the Trainee has met established criteria for promotion throughout the program. This includes documented and demonstrated proficiency in the ACGME competencies of:

- Patient Care
- Medical Knowledge
- Practice Based Learning and Improvement
- Interpersonal and Communication Skills
- Professionalism
- Systems Based Practice
- Osteopathic Principles and Practice (if an osteopathically recognized program)

Demonstrated proficiencies are developed by the program and should be consistent with ACGME program requirements.

Promotion from PGY-1 to PGY-2 requires passage of COMLEX Level 3 or USMLE Step 3.

No Trainee may remain at the same level longer than 24 months, exclusive of leave. Trainees' that have left their program for a period longer than three months may be subject to additional testing to assure that their skills and abilities have not deteriorated to a level that would suggest that re-entry may require additional adjustments to their training schedule.

The Sponsoring Institution requires that each Sponsored Program provides a Trainee with written notice of intent when that Trainee agreement is not renewed, will not be promoted to the next level of training, or dismissed. Non-renewal, failure to promote or dismissal are reviewable disciplinary actions and follow the disciplinary and adverse actions policy.

Each Sponsored Program must provide a copy of the policy to the OSU-CHS/OMECO GME office for review and verification of compliance with the policy. If there are discrepancies between Sponsored Program and Sponsoring Institution policies, in general the stricter of the two policies will apply; however, the Sponsoring Institution and the Sponsored Programs will work collaboratively to come to consensus in areas of debate.
